Practical guide

Create Request

Airbus – Customer Digital Experience
TechRequest Deployment & Support

September 2023

AIRBUS

Introduction

TechRequest Key Concepts

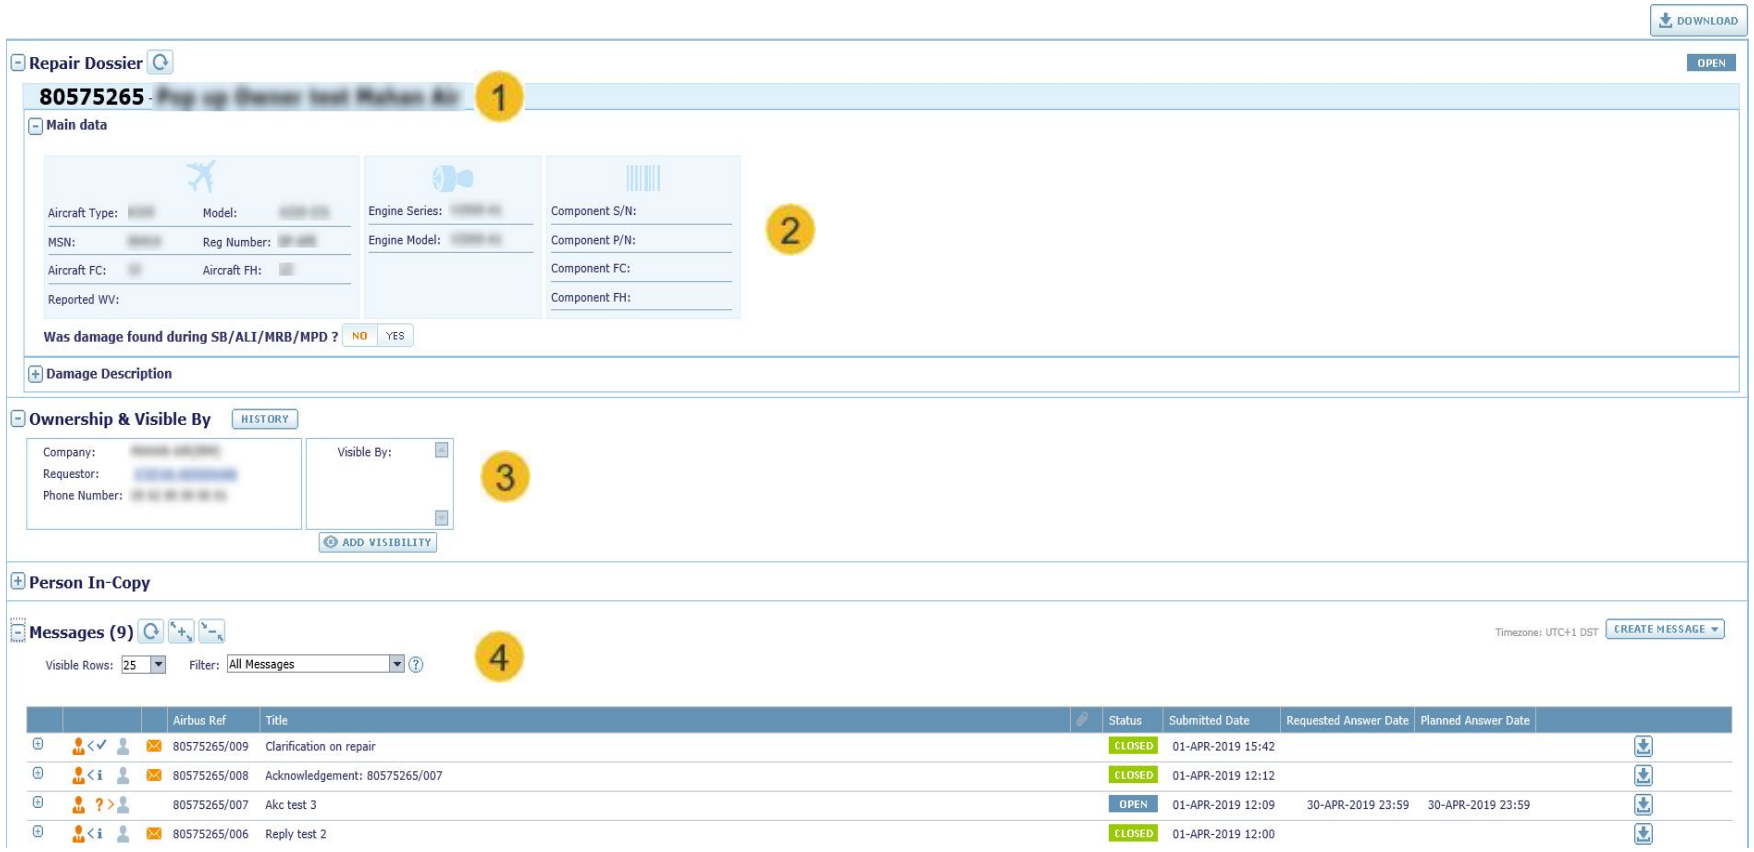
A Technical Request is made of:

One Dossier

1. Its reference number & title
2. Its Main data (Dependent to Domain)
3. Its Owner

Several Messages 4

- Question to Airbus
- Answer from Airbus
- Information from Airbus
- Quotation from Airbus



When you create a new technical request, you create a new Message to Airbus within a new Dossier.

The Messages workflow of your request is stored in the Dossier

AIRBUS

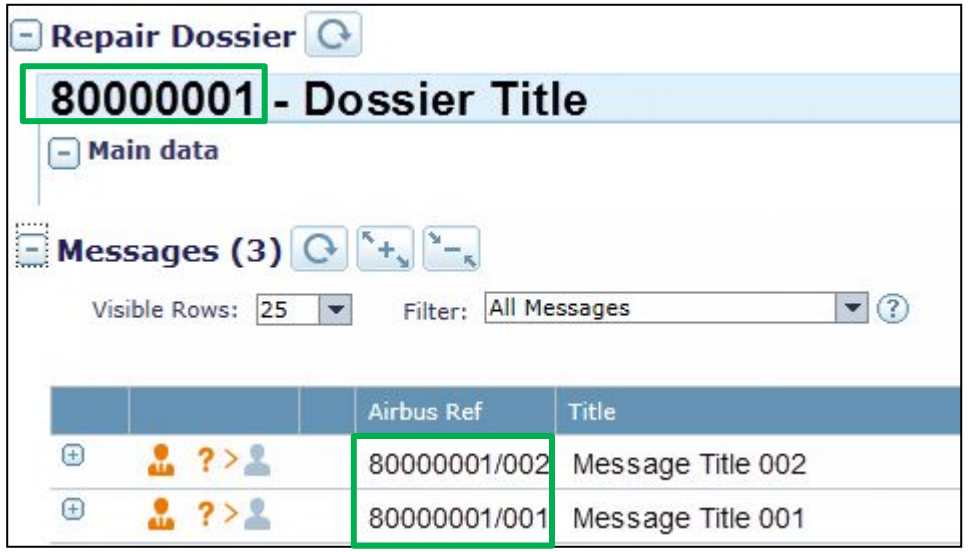
Introduction

TechRequest Key Concepts

Dossiers & Messages reference numbers (Airbus Ref.)

- When you create a new Technical Request, an Airbus Reference is automatically associated to the Dossier
  e.g. Dossier Ref: 80000001

- When you create a new Message within the Dossier, an Airbus Reference is automatically associated to the Message
  The reference always contains the Dossier Reference
  e.g. Message Ref: 800000001/001



Dossiers & Messages status
