Tech Request

TECHREQUEST PRACTICAL GUIDE

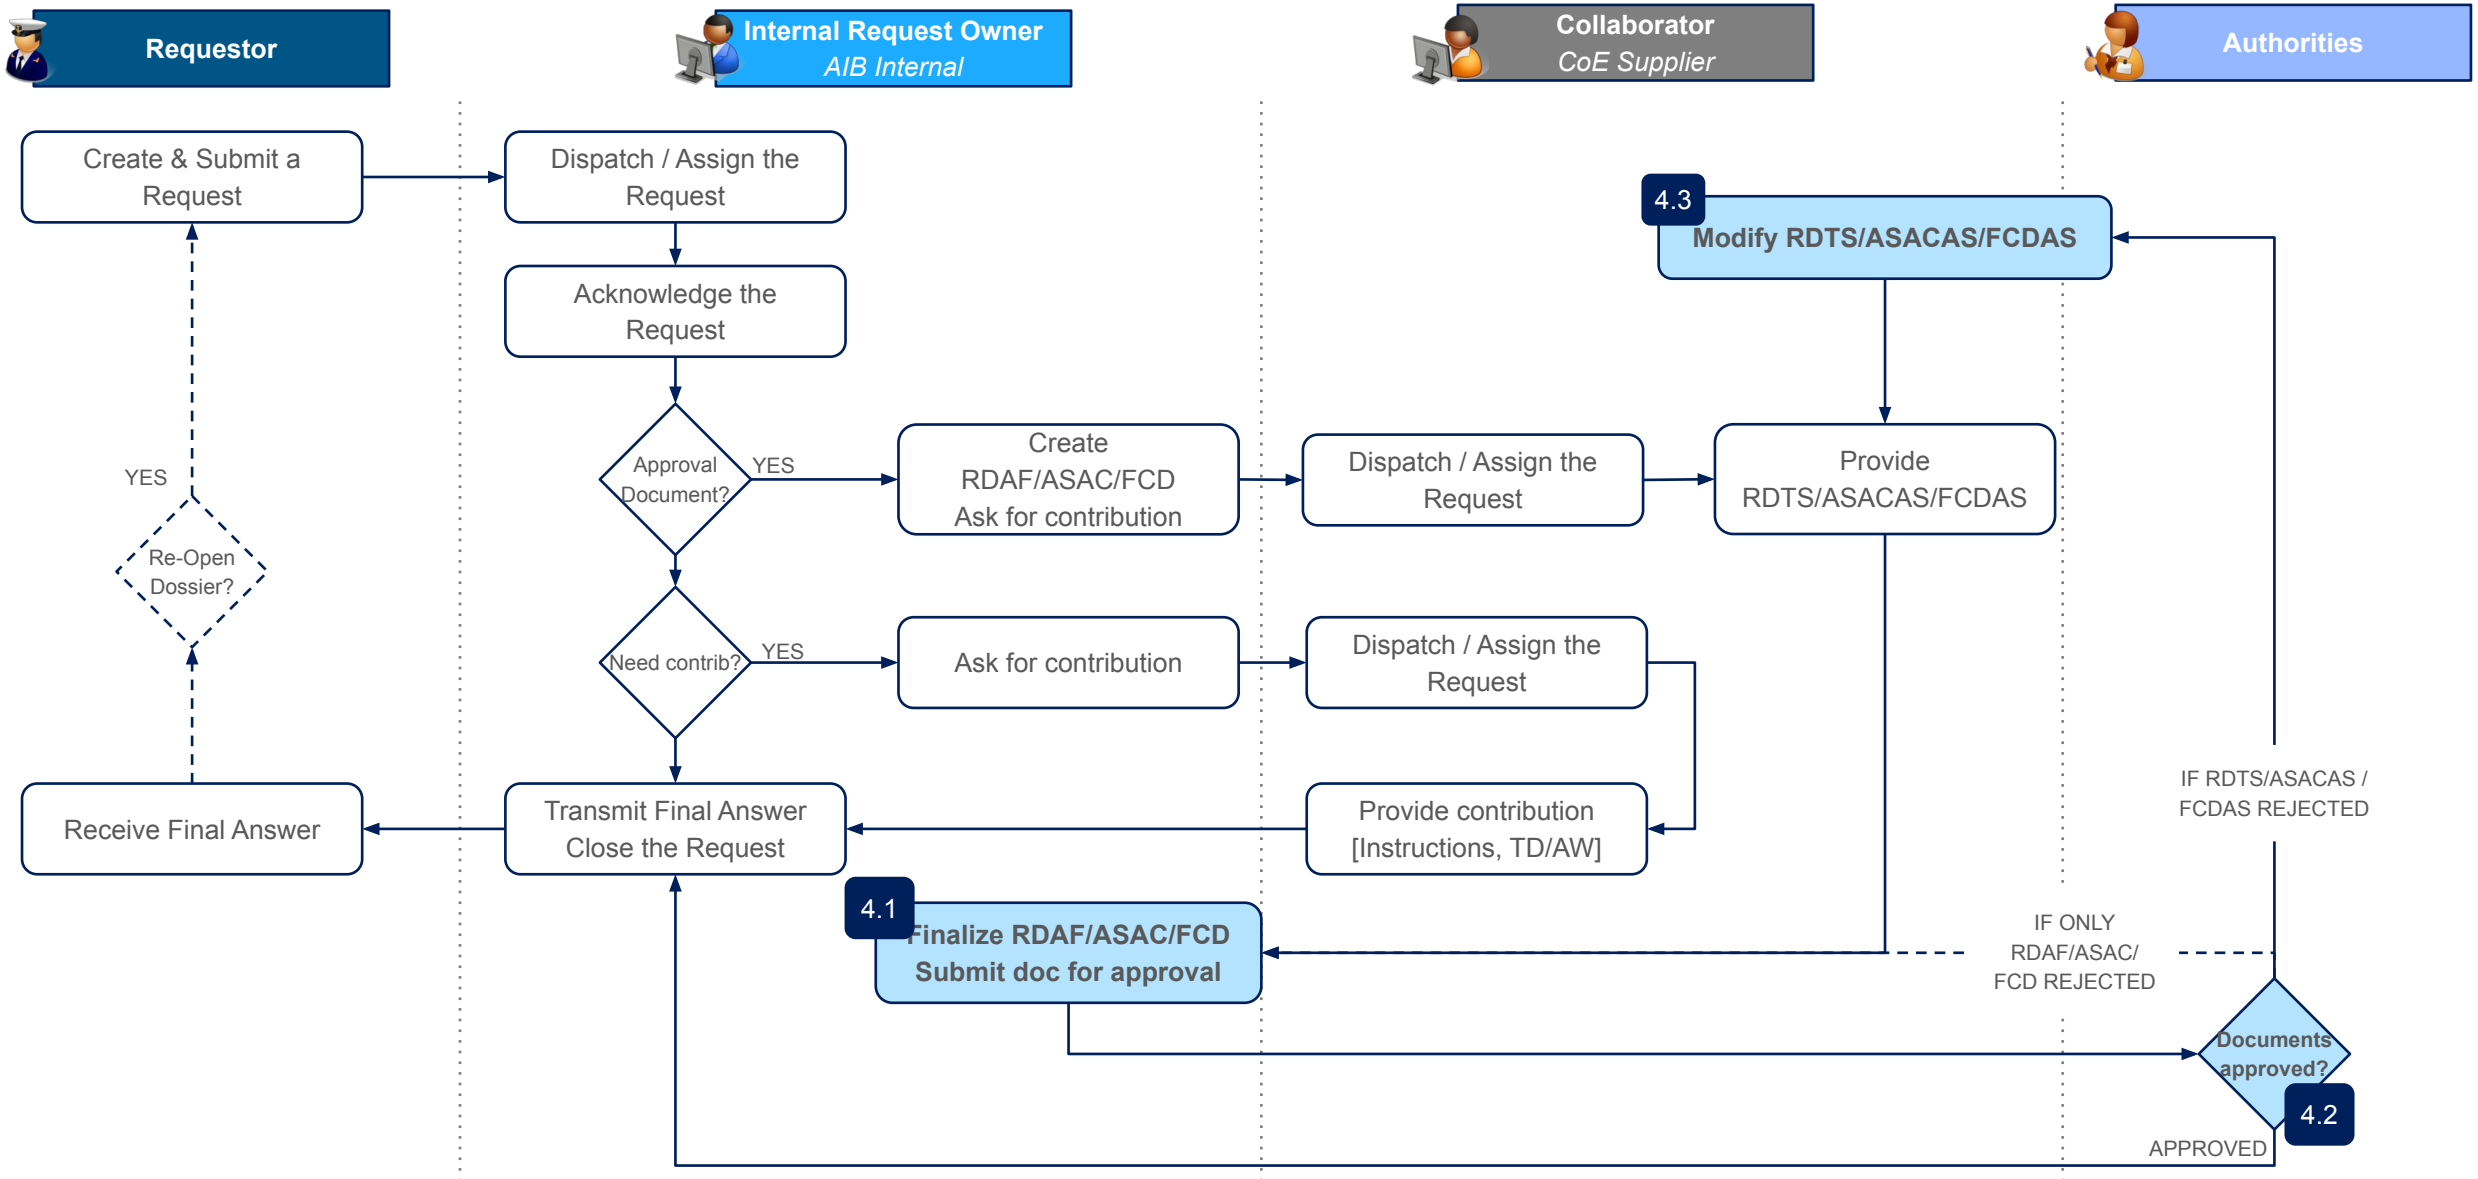
Approve Documents

Airbus – Customer Digital Experience
TechRequest Deployment & Support

February 1st 2021

AIRBUS

PROCESS OVERVIEW – Approve a Document



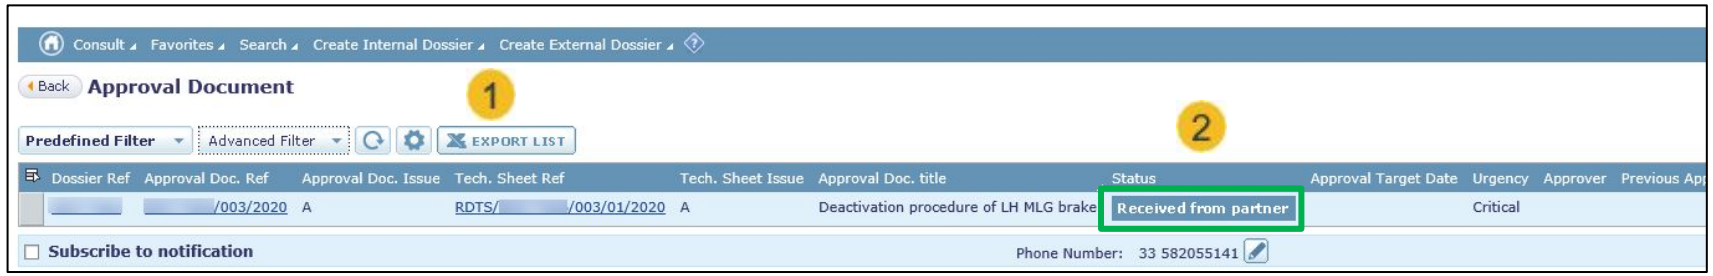
AIRBUS

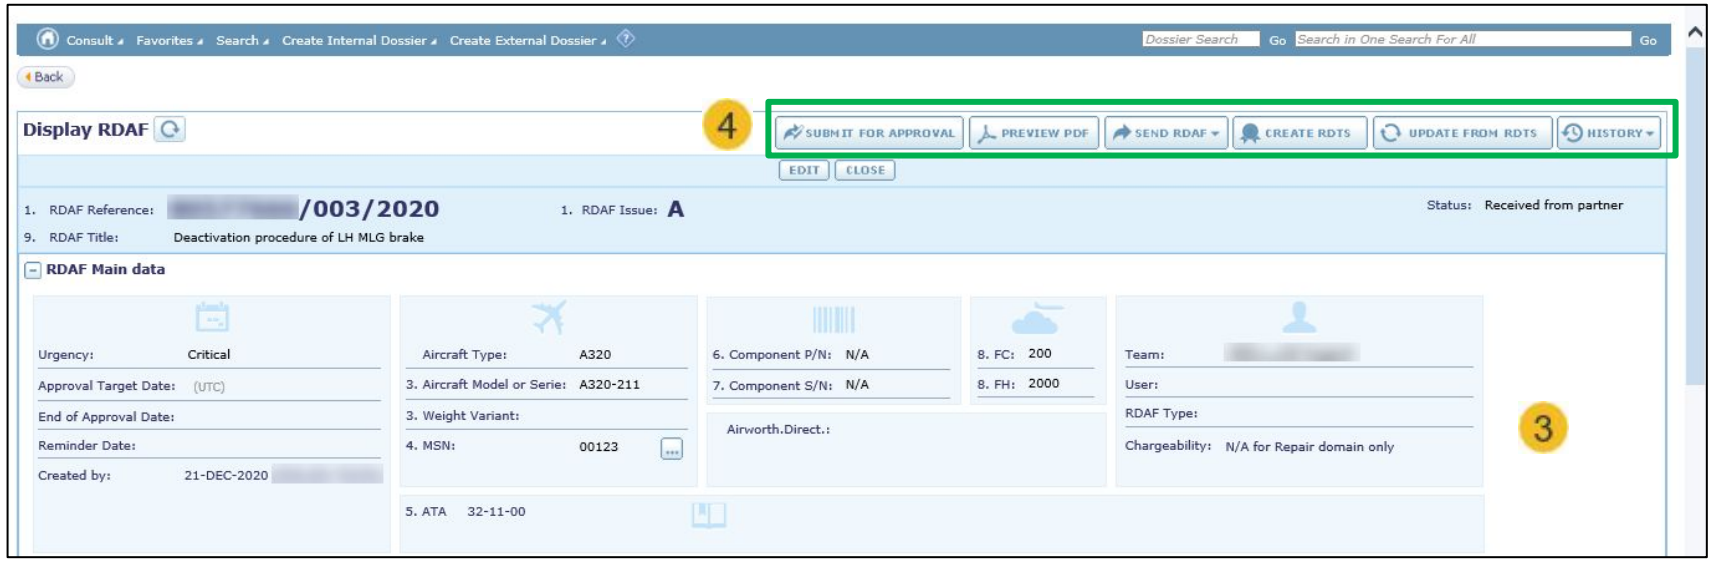
4.1 – Submit RDAF for Approval

Internal Request Owner
AIB Internal

Review the RDAF filled by the Contributor → Finalize RDAF & send it for Approval

1. Consult the "**Approval Document**" dashboard and check the documents status
2. Open the documents "**Received from Partner**"
3. The RDAF form is displayed
4. The action buttons on the page's top enables you to perform the required actions





AIRBUS

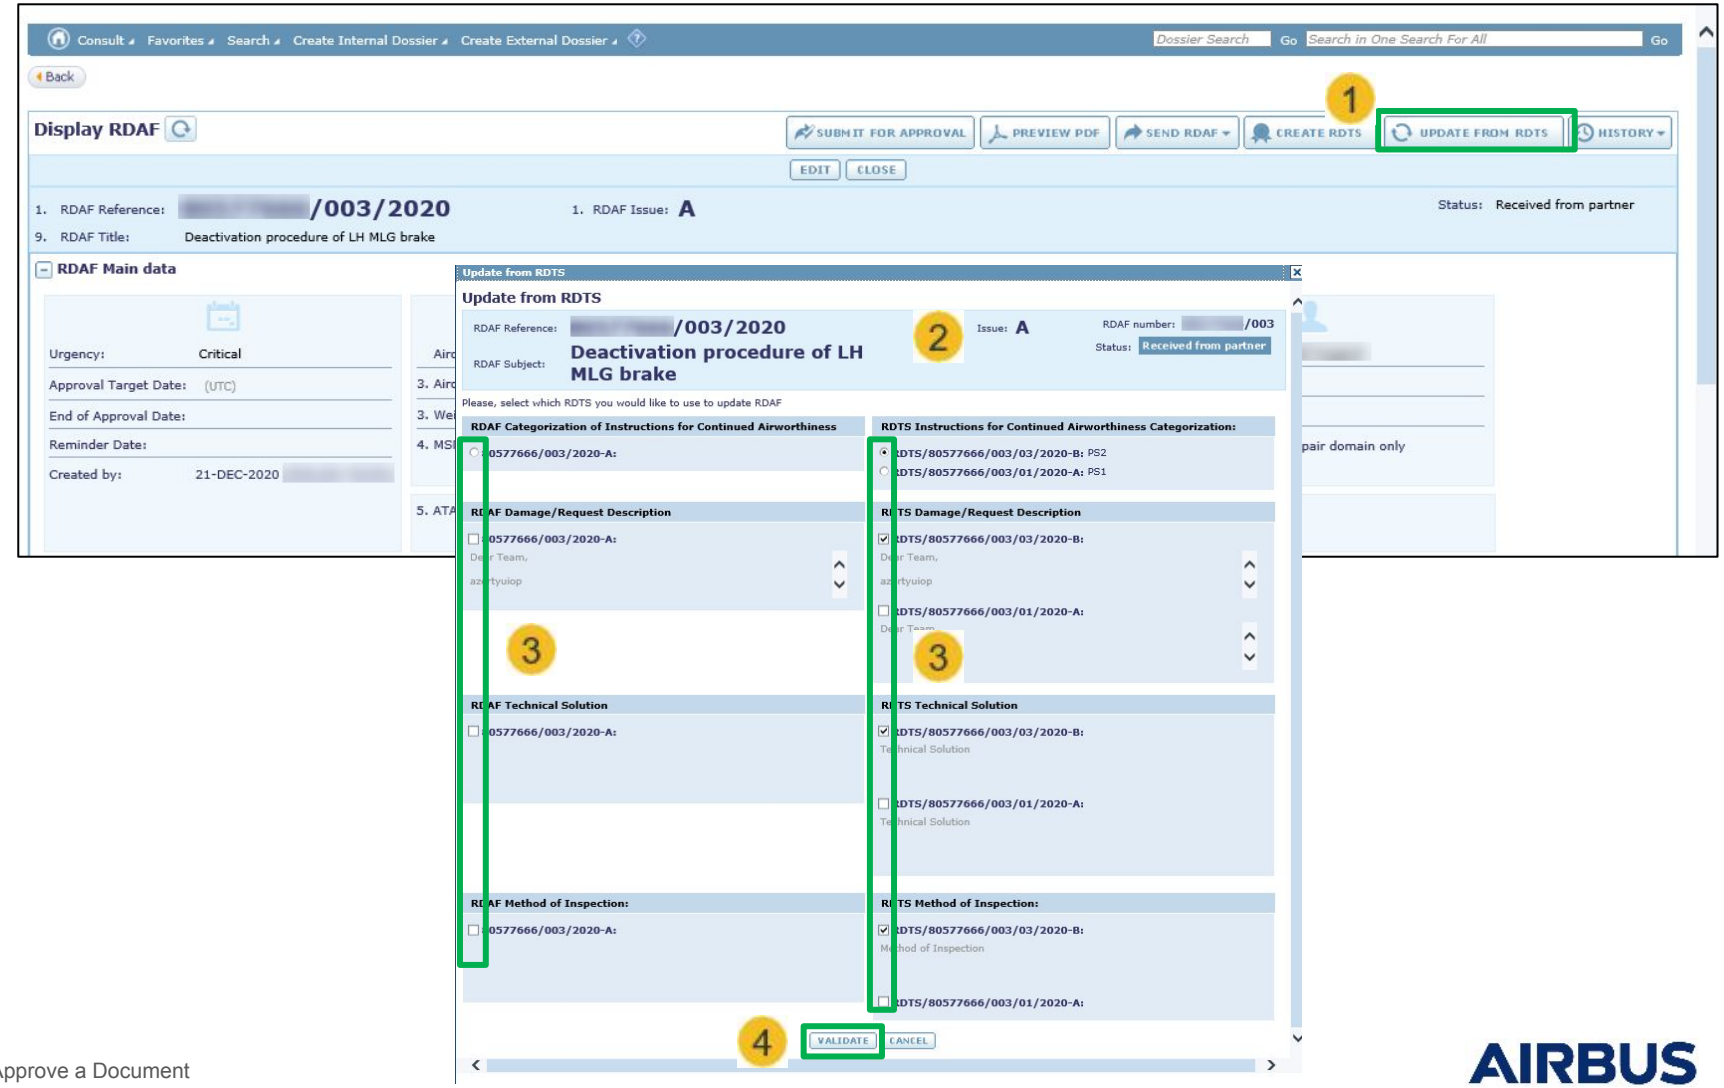
4.1 – Submit RDAF for Approval

Internal Request Owner
AIB Internal

Review the RDAF filled by the Contributor → **Finalize RDAF & send it for Approval**

You can update the RDAF from the RDTS information:

1. Click on "**Update from RDTS**" button
2. It generates a table displaying the:
   - RDAF main data in the left column
   - RDTS main data in the right column.
3. Tick on the boxes to select the associated information you want to retrieve in the RDAF (content is displayed in light grey) By default, the RDTS information are selected. It is possible to concatenate RDAF and RDTS sketches.
4. Click on "**Validate**" to update the RDAF as required.



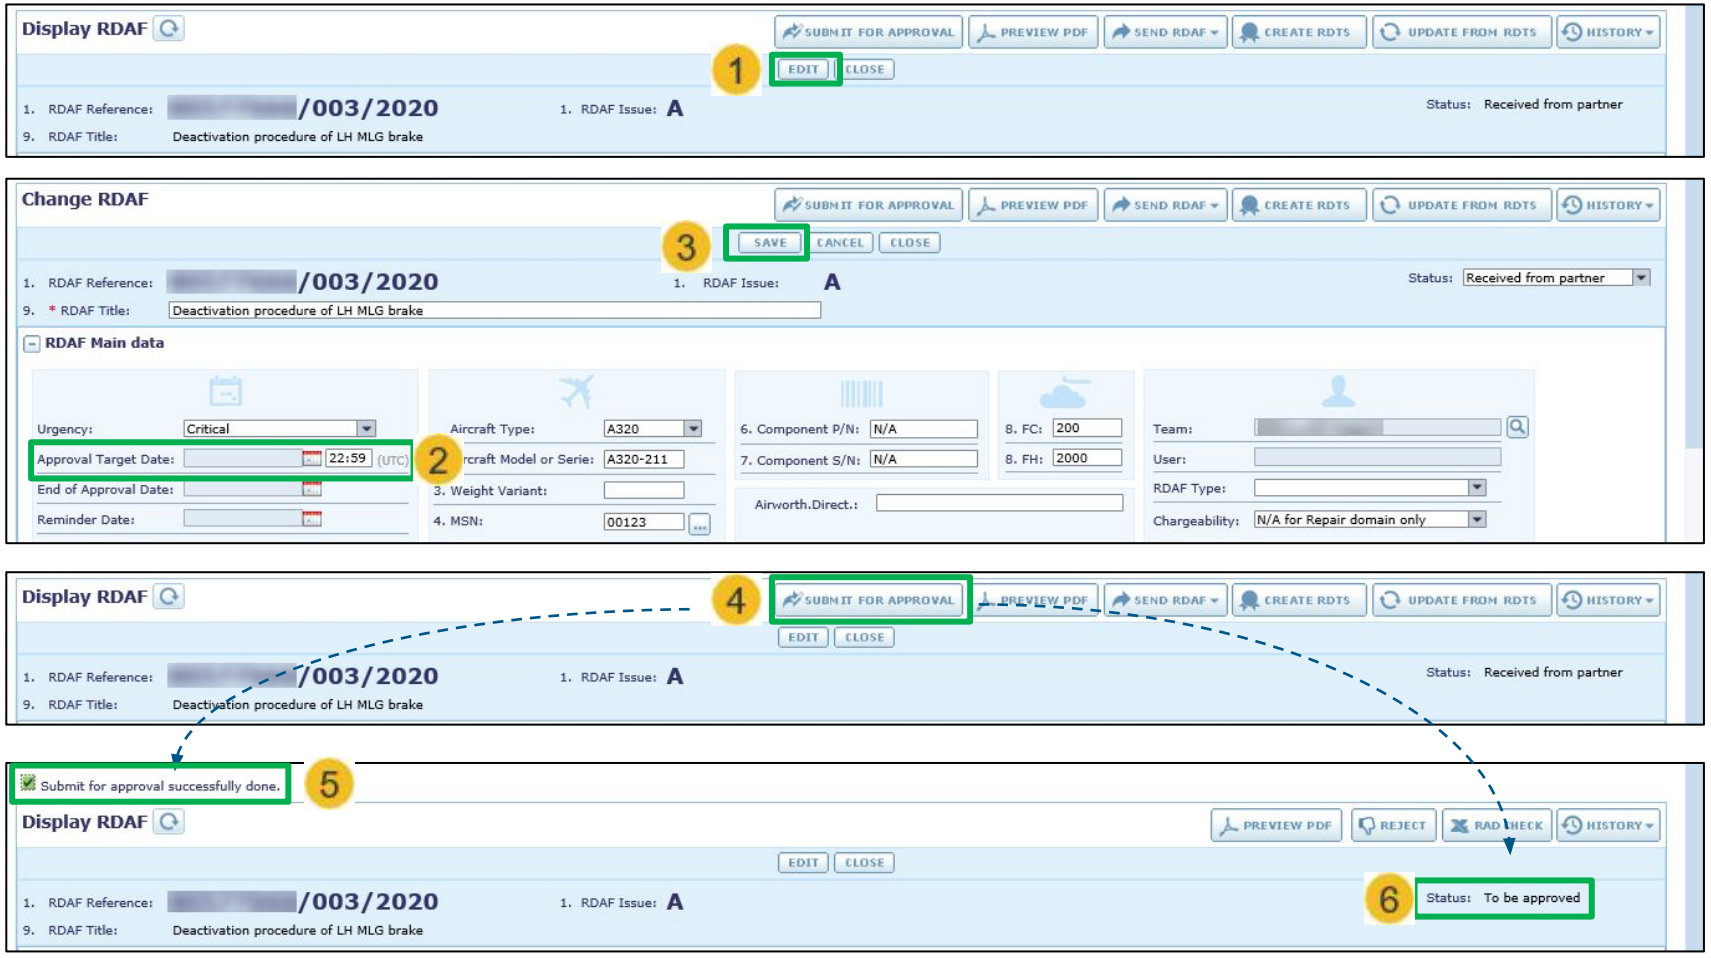
AIRBUS

4.1 – Submit RDAF for Approval

Review the RDAF filled by the Contributor → Finalize RDAF & send it for Approval

Internal Request Owner
AIB Internal

1. **Edit** the document.
2. Fill in the Approval Target Date and other mandatory fields.
3. Save RDAF.
4. Click on "**Submit for Approval**" button to submit it to the Authorities.
5. A notification confirms that the document has been successfully submitted.
6. Document status will be automatically set to "**To be approved**".



AIRBUS

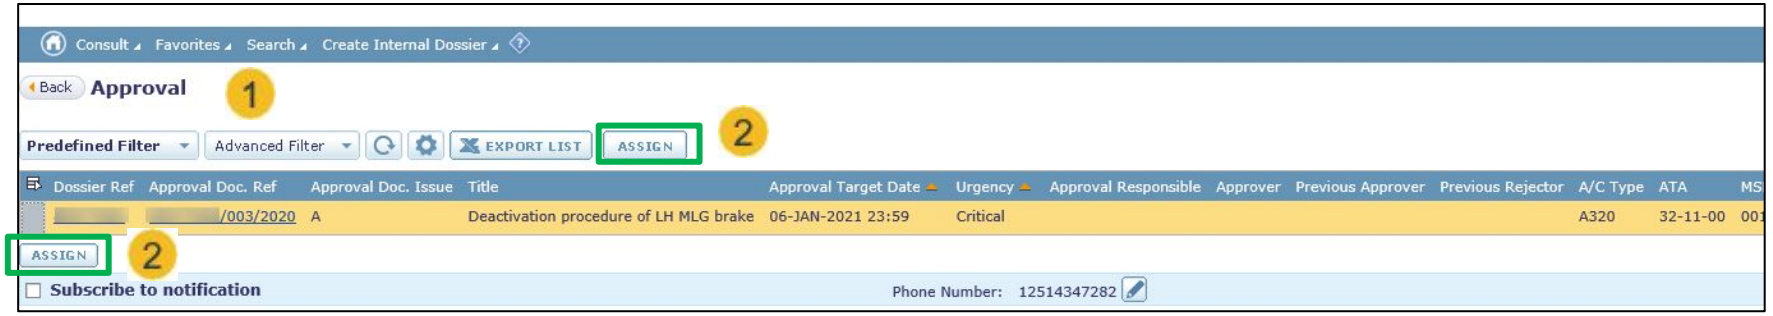
4.2 – Approve/Reject a RDAF/RDTS

Authorities

Approval Dashboard & request assignation → Consult RDAF / RDTS → Approve or Reject the document

The Authorities can approve or reject a RDAF in TechRequest

1. Consult the **Approval dashboard** to display the requests for approval, submitted by Airbus internal request owners
2. Select the request for approval by selecting the line (**don't click** on the dossier's hyperlink) and click on "**Assign**"
3. Select someone from the "**users list**" or choose "Me" if you want to assign to you this approval documentation and **Validate**
4. A notification confirms that the document has been successfully assigned

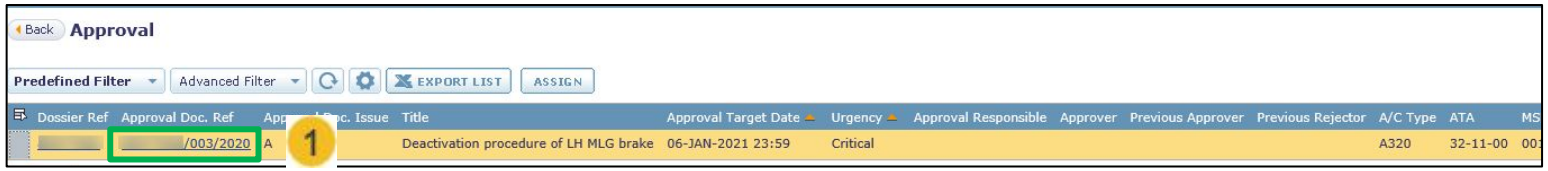


AIRBUS

4.2 – Approve/Reject a RDAF/RDTS

Authorities

Approval Dashboard & request assignation → **Consult RDAF / RDTS** → Approve or Reject the document

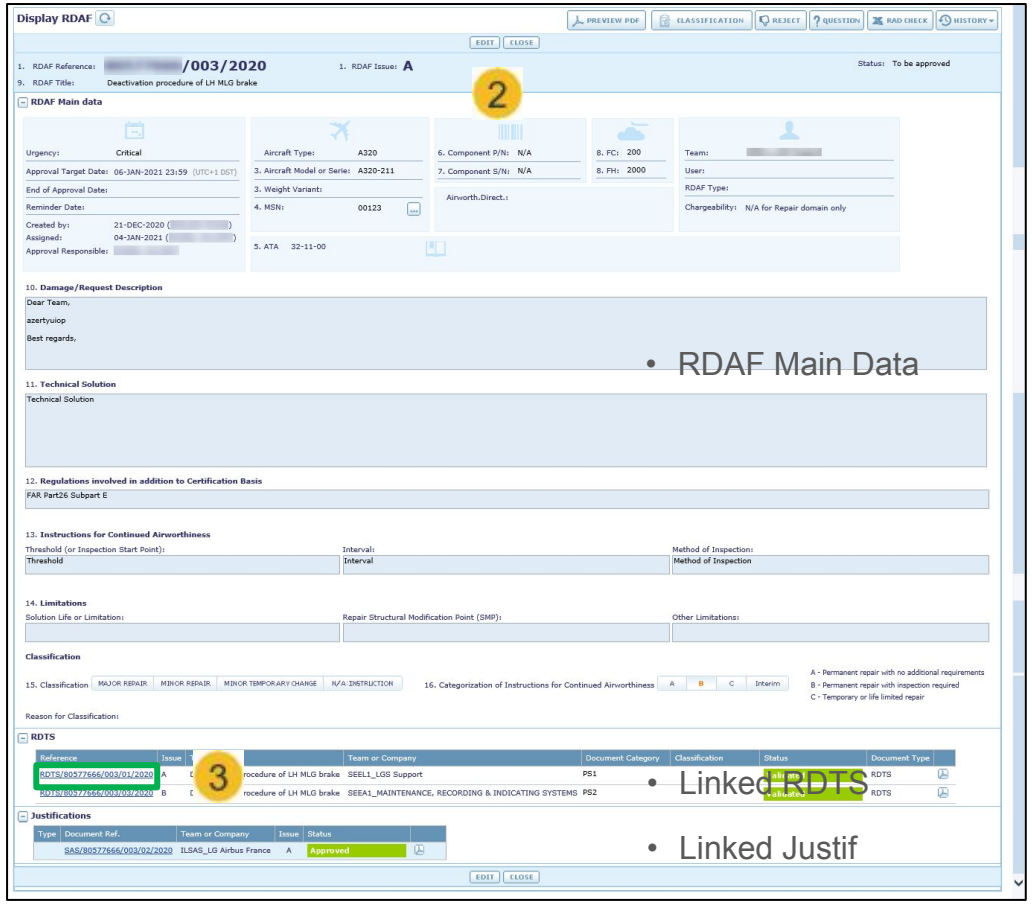


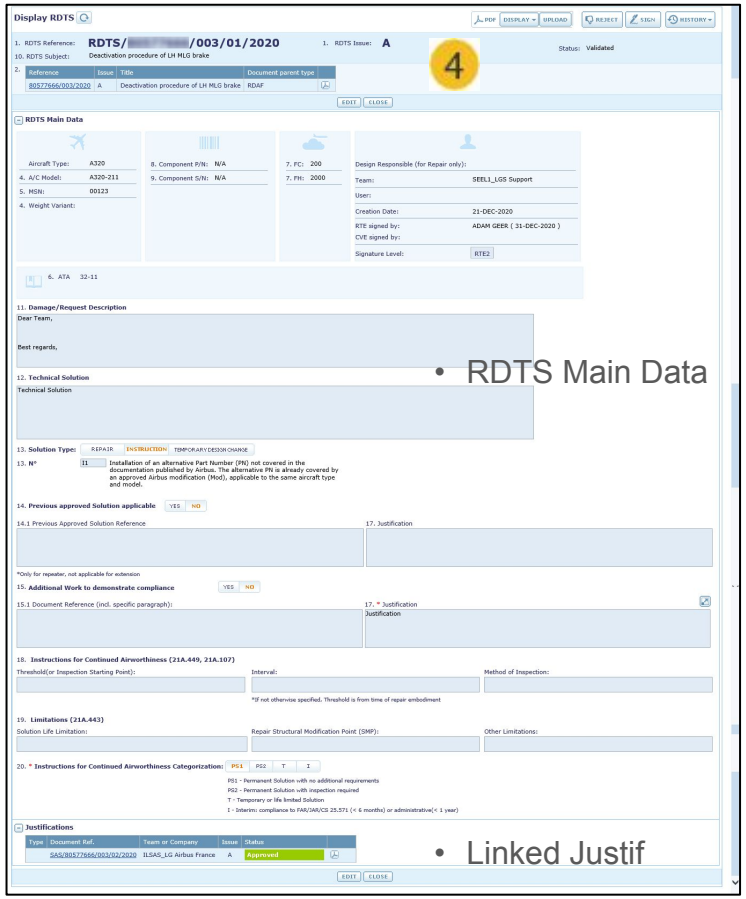
1. Click on the "**Approval Doc. Ref**" to open the RDAF.

2. The RDAF is displayed
   It is organized in 3 parts
   - RDAF main data
   - Linked RDTS
   - Linked justifications

3. Click on the RDTS hyperlinks in the "**RDTS**" section.

4. The RDTS is displayed
   It is organized in 2 parts
   - RDTS main data
   - Justifications





AIRBUS

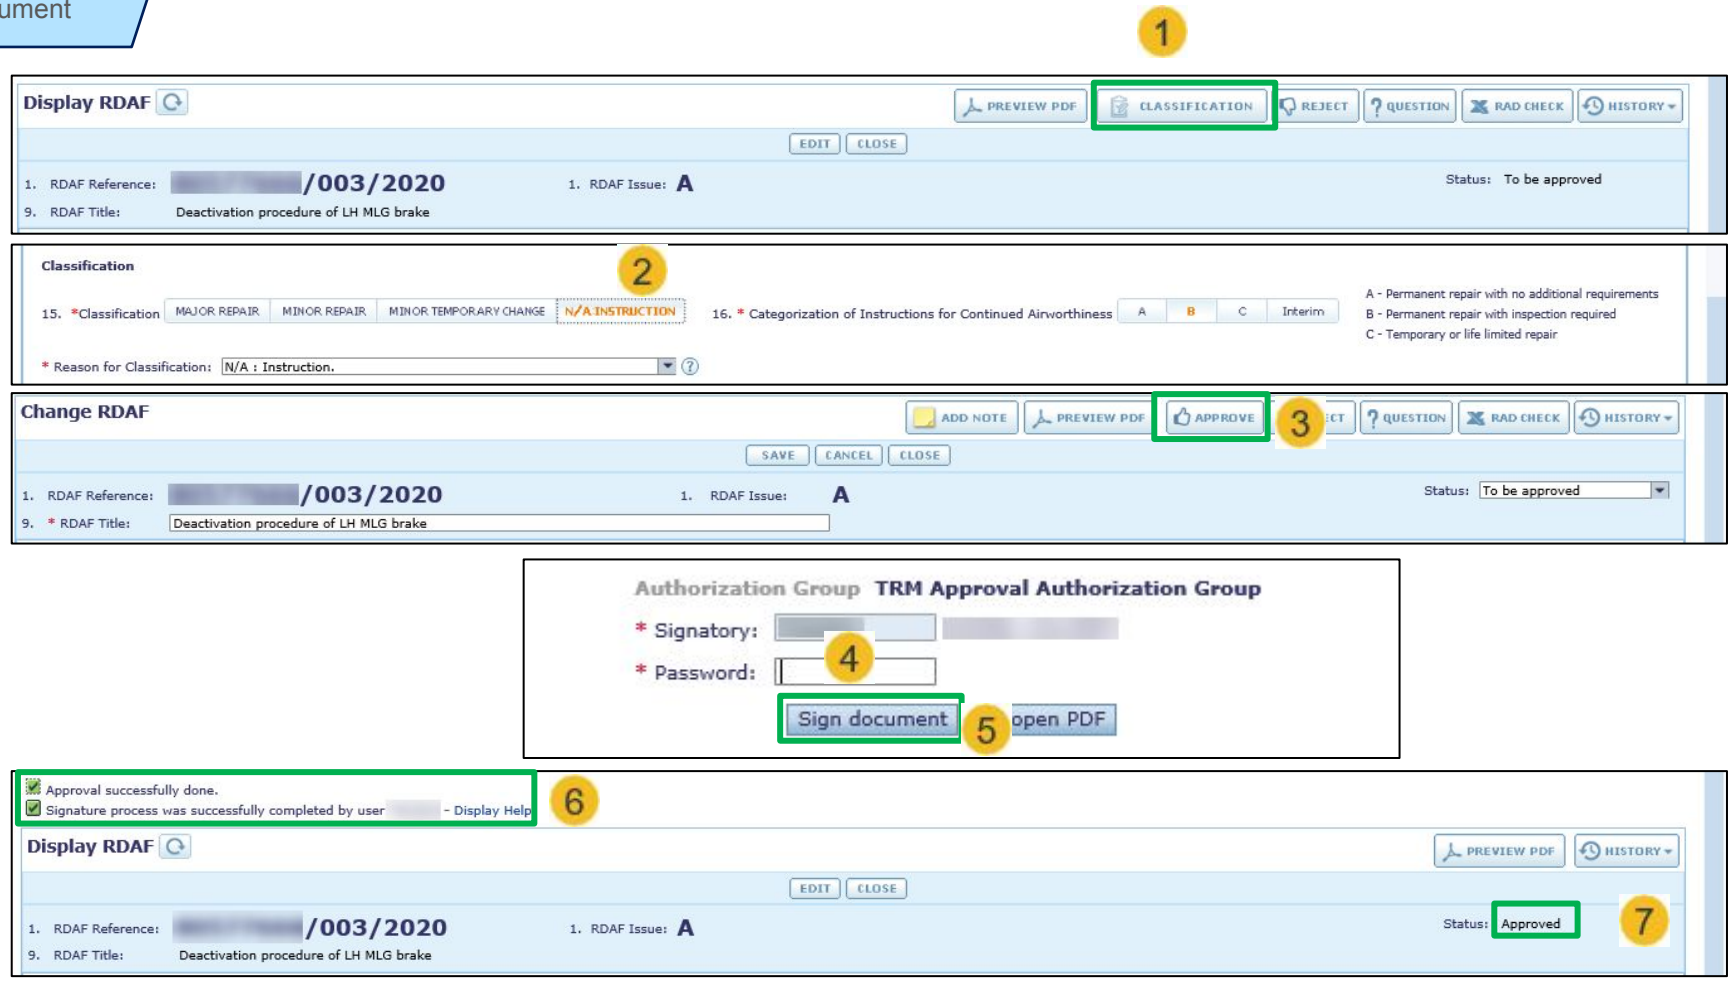
4.2 – Approve/Reject a RDAF/RDTS

Authorities

Approval Dashboard & request assignation → Consult RDAF / RDTS → Approve or Reject the document

To approve a RDAF:

1. Click on "**Classification**" on top of the RDAF template
2. Complete classification mandatories fields
3. Click on "**Approve**"
4. Enter your TechRequest password
5. Click on "**Sign document**" button
   Note: You need to have a signature with stamp uploaded in your profile (see Apendix 2)
6. A notification is displayed to confirm that the RDAF has been successfully approved
7. RDAF and RDTS status are set to "**Approved**"



AIRBUS

4.2 – Approve/Reject a RDAF/RDTS

Authorities

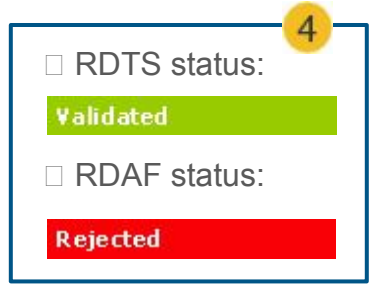
Approval Dashboard & request assignation → Consult RDAF / RDTS → Approve or Reject the document

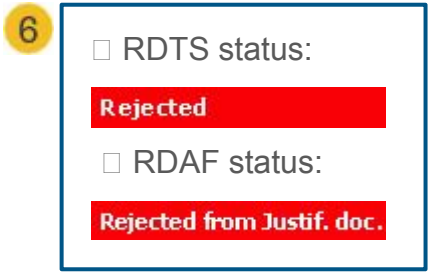
To reject a RDAF:

1. Click on "**Reject**" button on top of the RDAF template.
2. A "**Rejection Cause**" pop-up is displayed. It is mandatory to fill in at least one of the two fields. Then click on "**Validate**".
3. The Rejection Cause is consultable via the "**History**" function;
4. RDAF status is automatically set to "**Rejected**".

To reject a RDTS:

5. Same actions as for RDAF, but at RDTS level.
6. RDTS status is automatically set to "**Rejected**", and associated RDAF status is set to "**Rejected from Justif. Doc**.".





AIRBUS

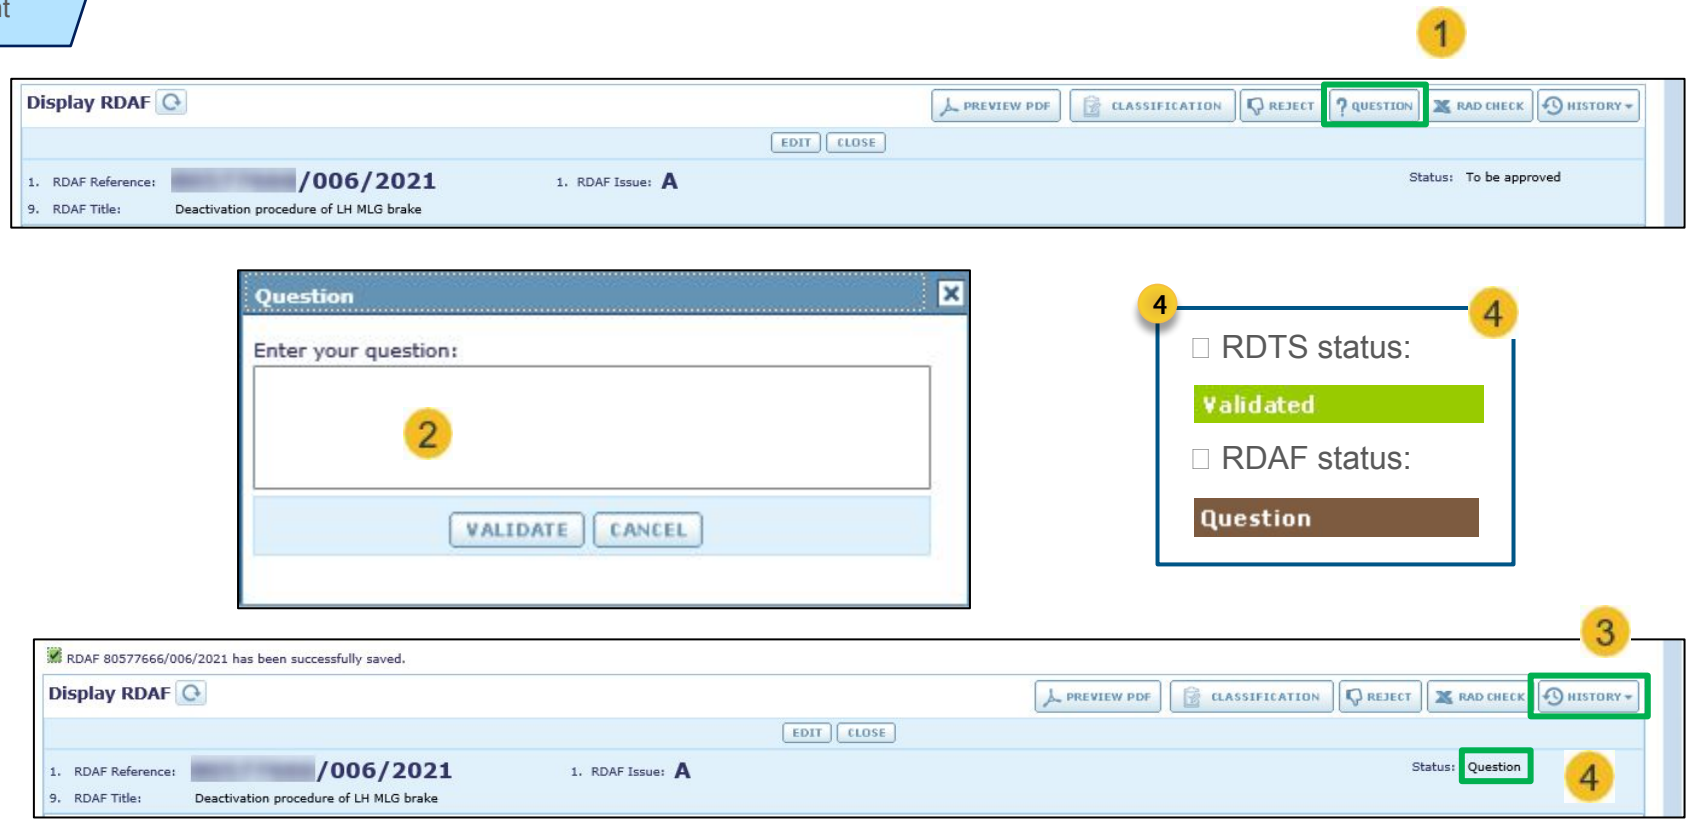
4.2 – Approve/Reject a RDAF/RDTS

Authorities

Approval Dashboard & request assignation → Consult RDAF / RDTS → Approve or Reject the document

To question a RDAF:

1. Click on “**Question**” button on top of the RDAF template.
2. A “**Question**” pop-up is displayed.
   It is mandatory to fill the question field. Then click on “**Validate**”.
3. The Question is consultable via the “**History**” function;
4. RDAF status is automatically set to “**Question**”.



AIRBUS

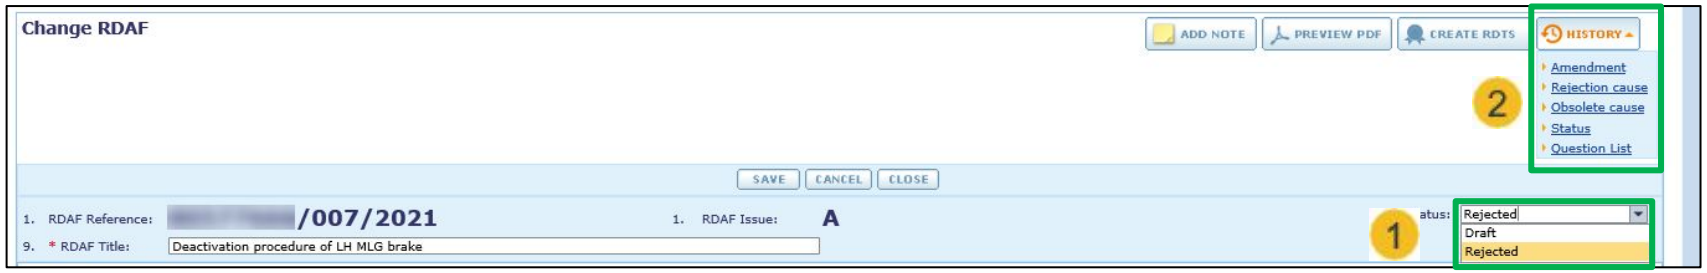
4.1 – Modify RDAF and/or ask for new RDTS

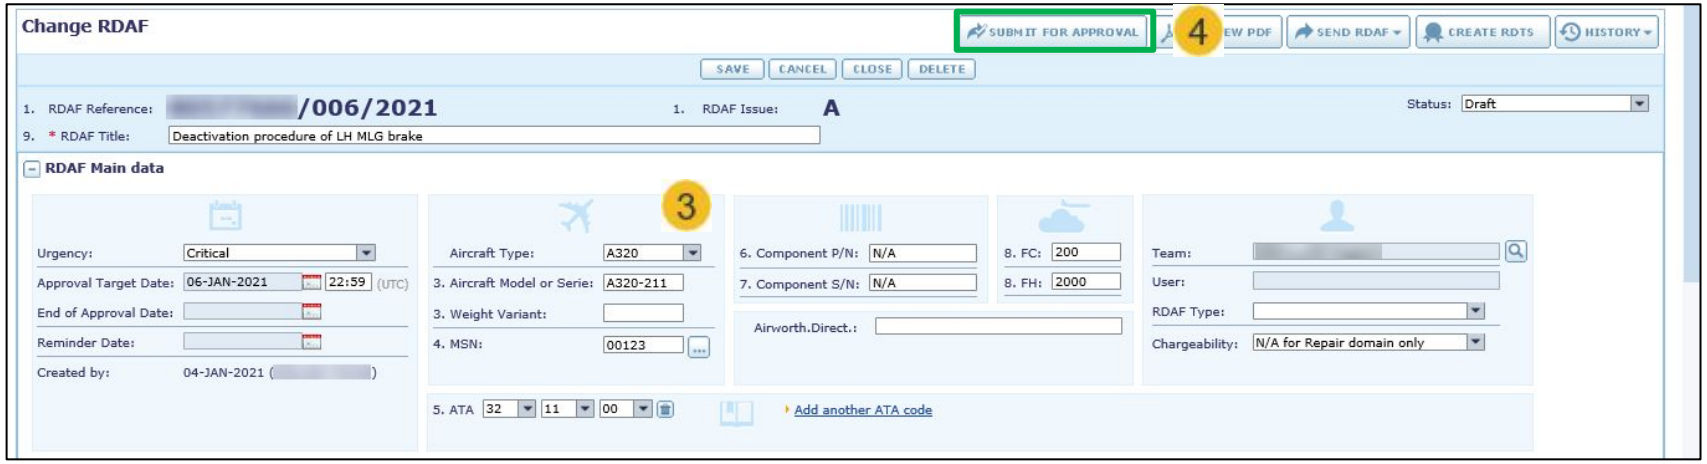
Internal Request Owner
AIB Internal

When RDAF has been rejected/question:

The Airbus internal request owner can modify the RDAF and submit it again for approval:

1. Edit RDAF and set its status to "**Draft**".
2. Consult the history to have the rejection cause/question
3. Modify impacted data.
4. Submit the RDAF for Approval.





AIRBUS

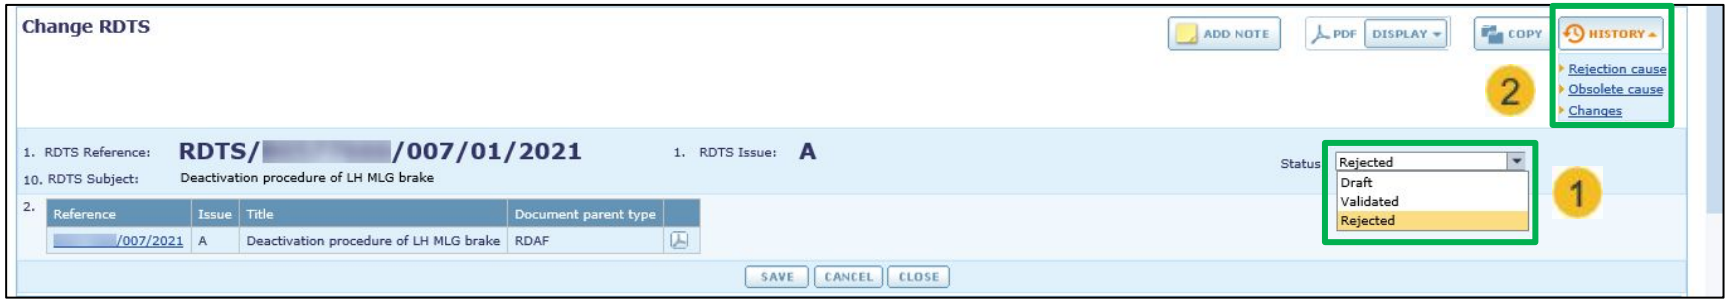
4.1 – Modify RDAF and/or ask for new RDTS

Collaborator
CoE Supplier

When RDTS has been rejected and main data are not impacted (1/2):

Contributor update the RDTS:

1. Edit the RDTS and set its status to “Draft”
2. Consult the history to have the rejection cause
3. Update impacted data.
4. Sign the RDTS.
5. Send the RDTS to Customer Support



AIRBUS

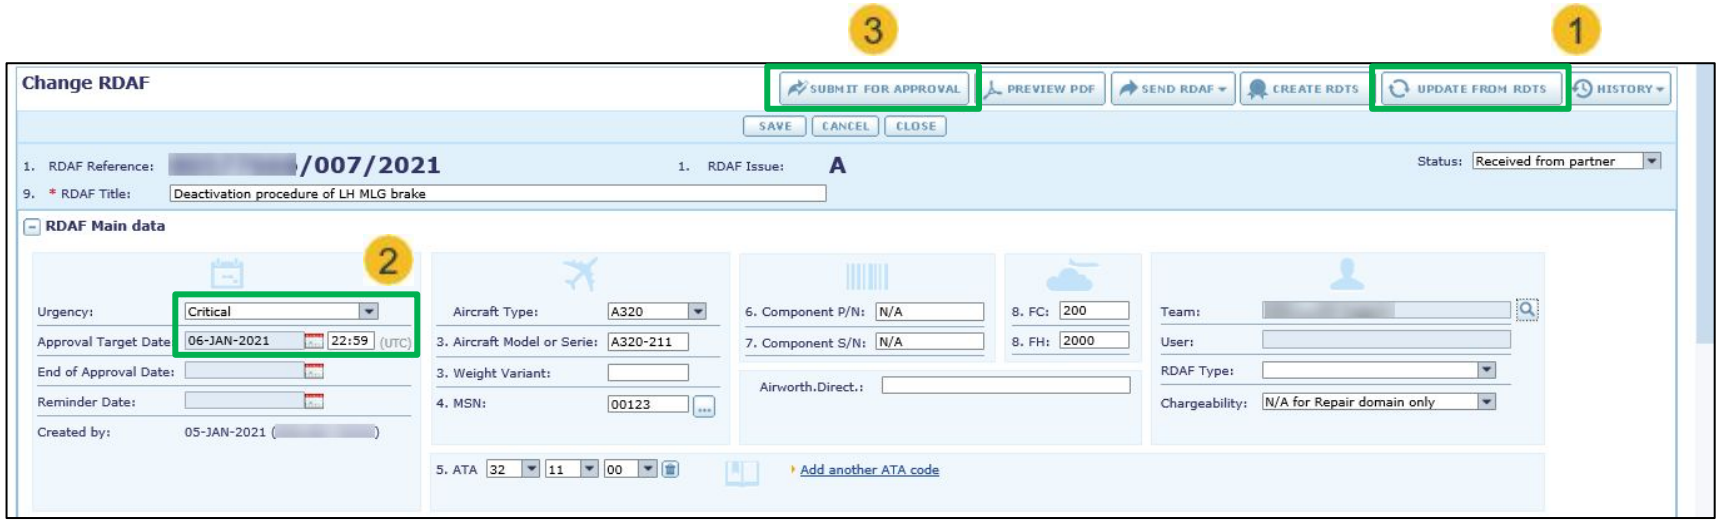
4.1 – RDAF and/or ask for new RDTS

Internal Request Owner
AIB Internal

[When RDTS has been rejected and main data are not impacted (2/2)]

The Airbus internal request owner :

1. Update the RDAF with RDTS new data.
2. Update the Urgency and Approval Target Date if needed.
3. Submit the RDAF for Approval.



AIRBUS

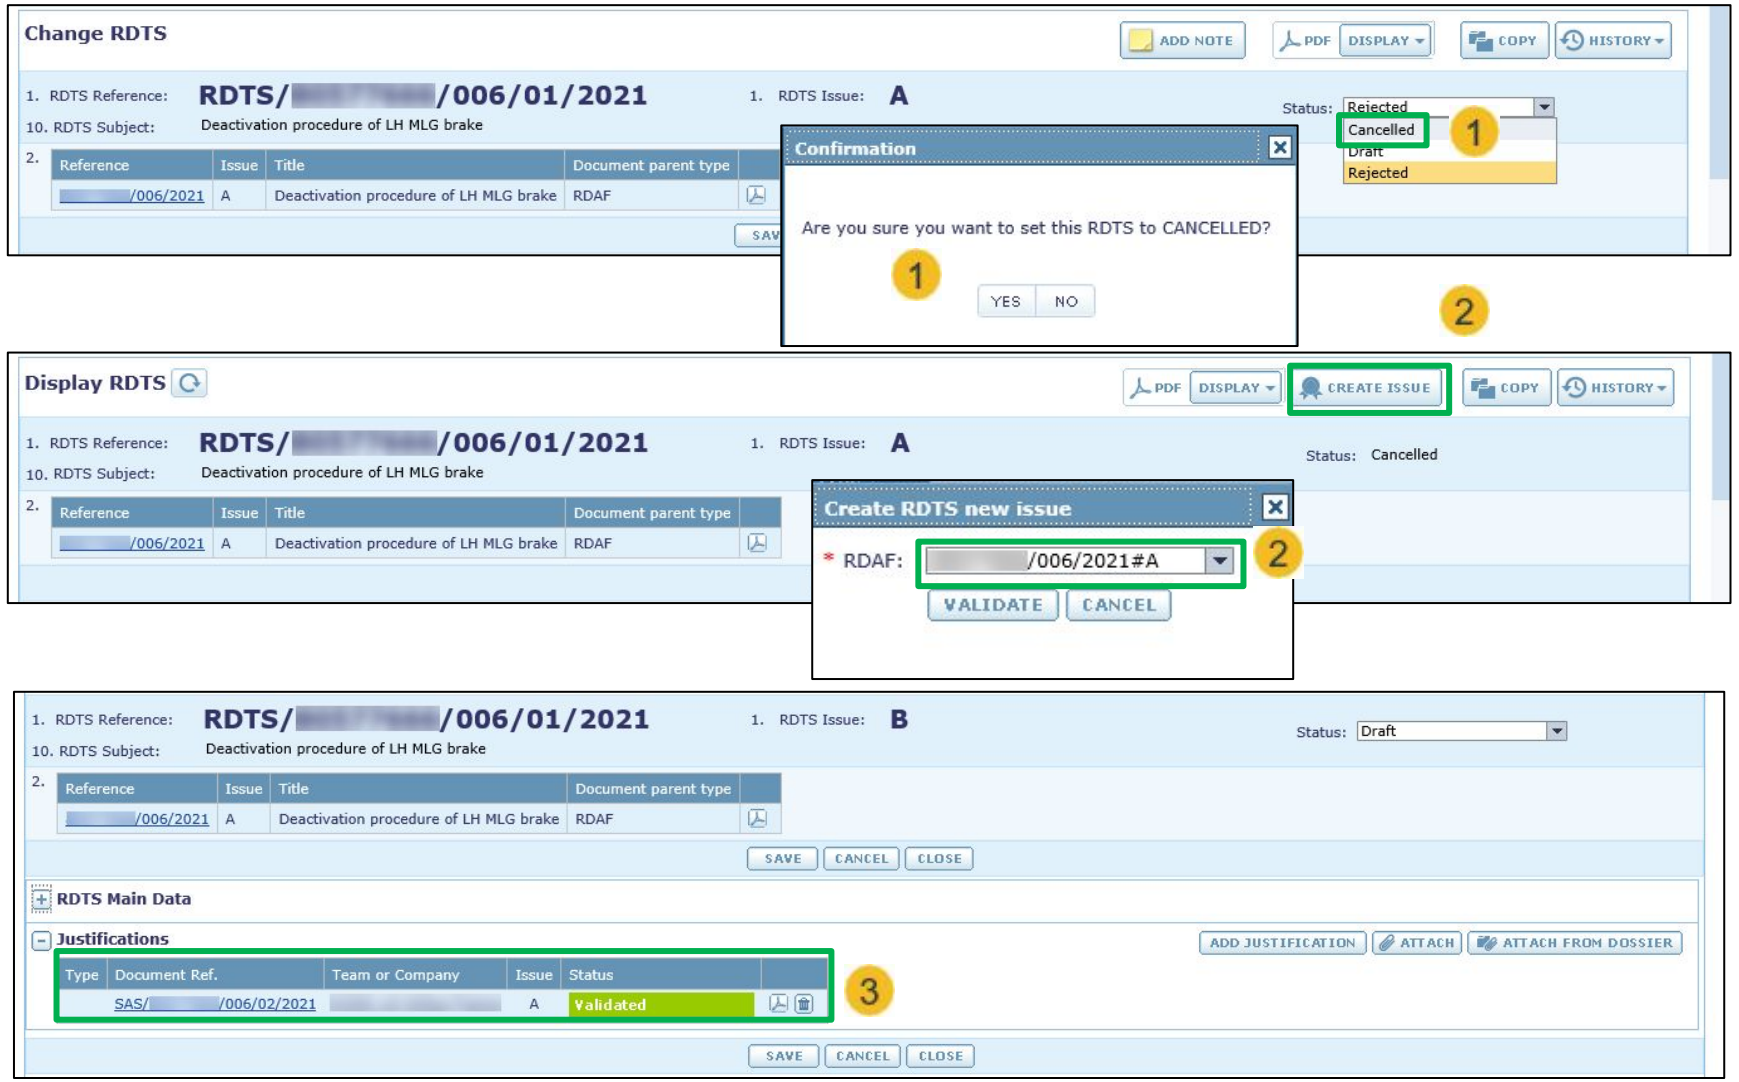
4.3 – Modify RDTS or create a new RDTS issue

Collaborator
CoE Supplier

When RDTS has been rejected and main data must be updated (with SAS/FAS) (1/4):

The Contributor create new issues of the RDTS, FAS and SAS

1. Edit the RDTS and set its status to "**Cancelled**".
2. Create a new RDTS issue and select the Target RDAF.
3. FAS and SAS of the previous issue are retrieved in the RDTS new issue.



AIRBUS

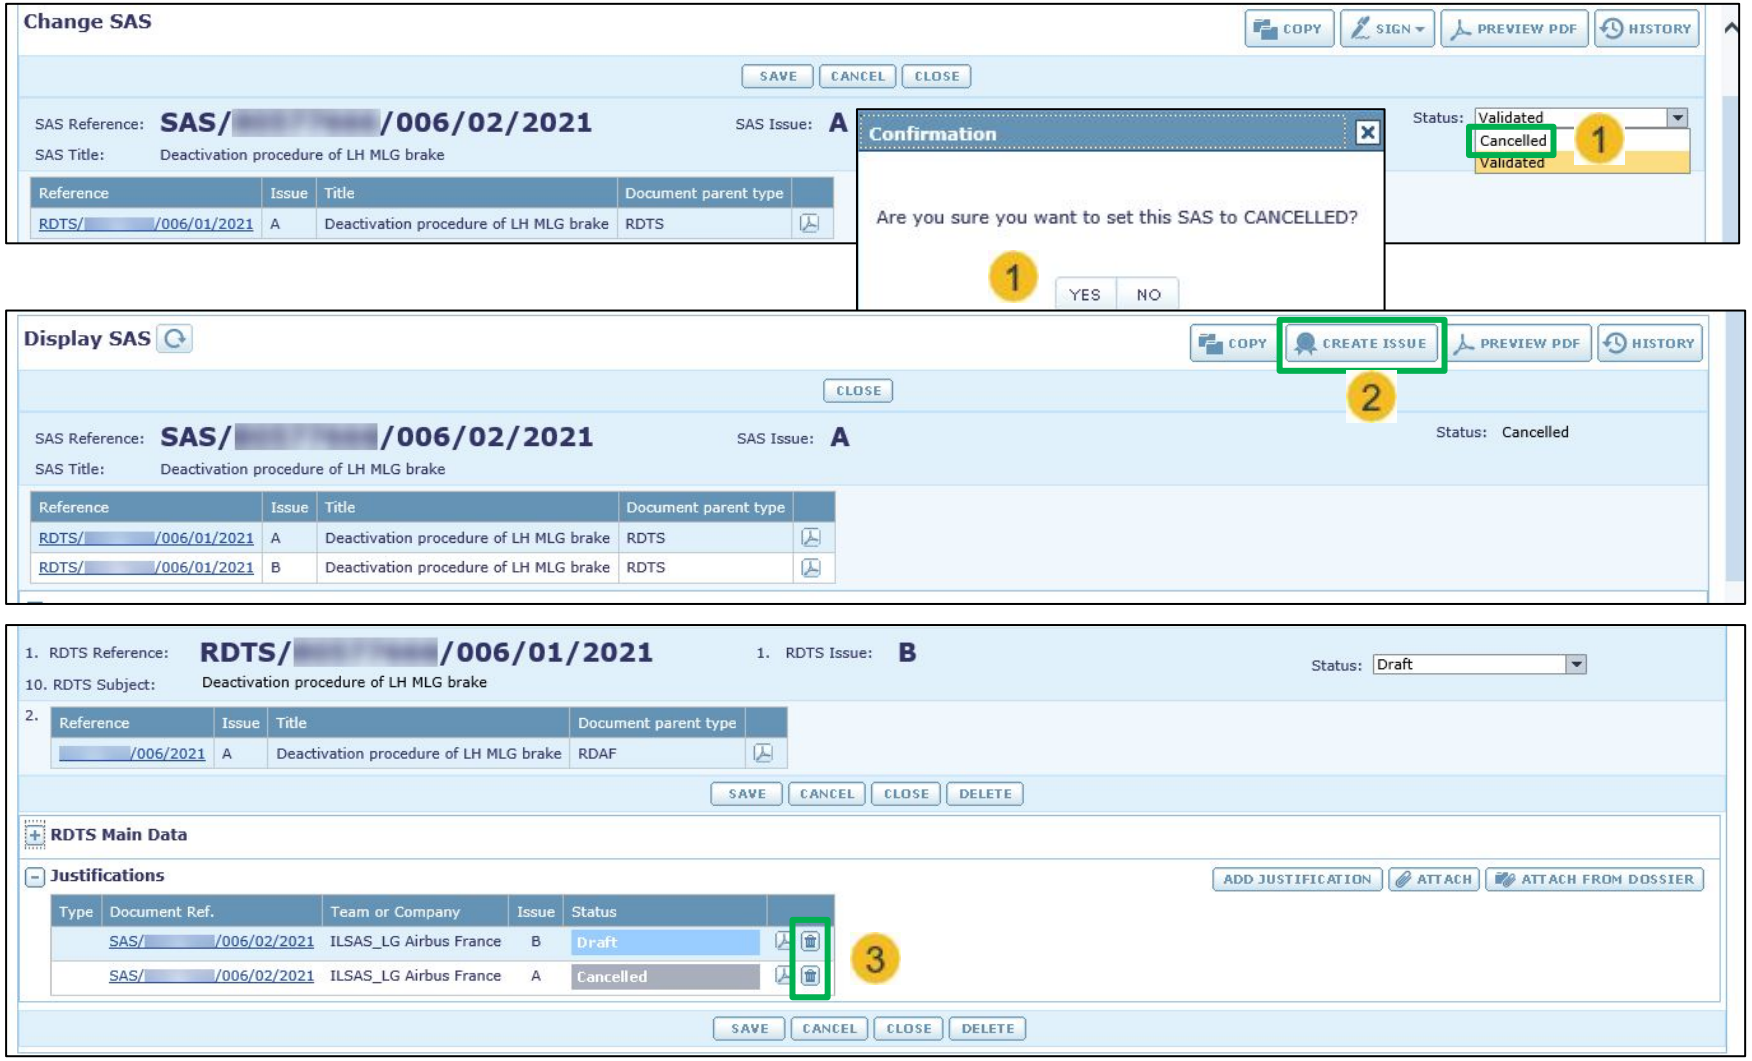
4.3 – Modify RDTS or create a new RDTS issue

Collaborator
CoE Supplier

When RDTS has been rejected and main data must be updated (with SAS/FAS) (2/4):

The Contributor create new issues of the RDTS, FAS and SAS

1. If a FAS/SAS is at Validated status, set its status to **Cancelled**.
2. Create new FAS/SAS issue
3. Remove useless FAS/SAS



AIRBUS

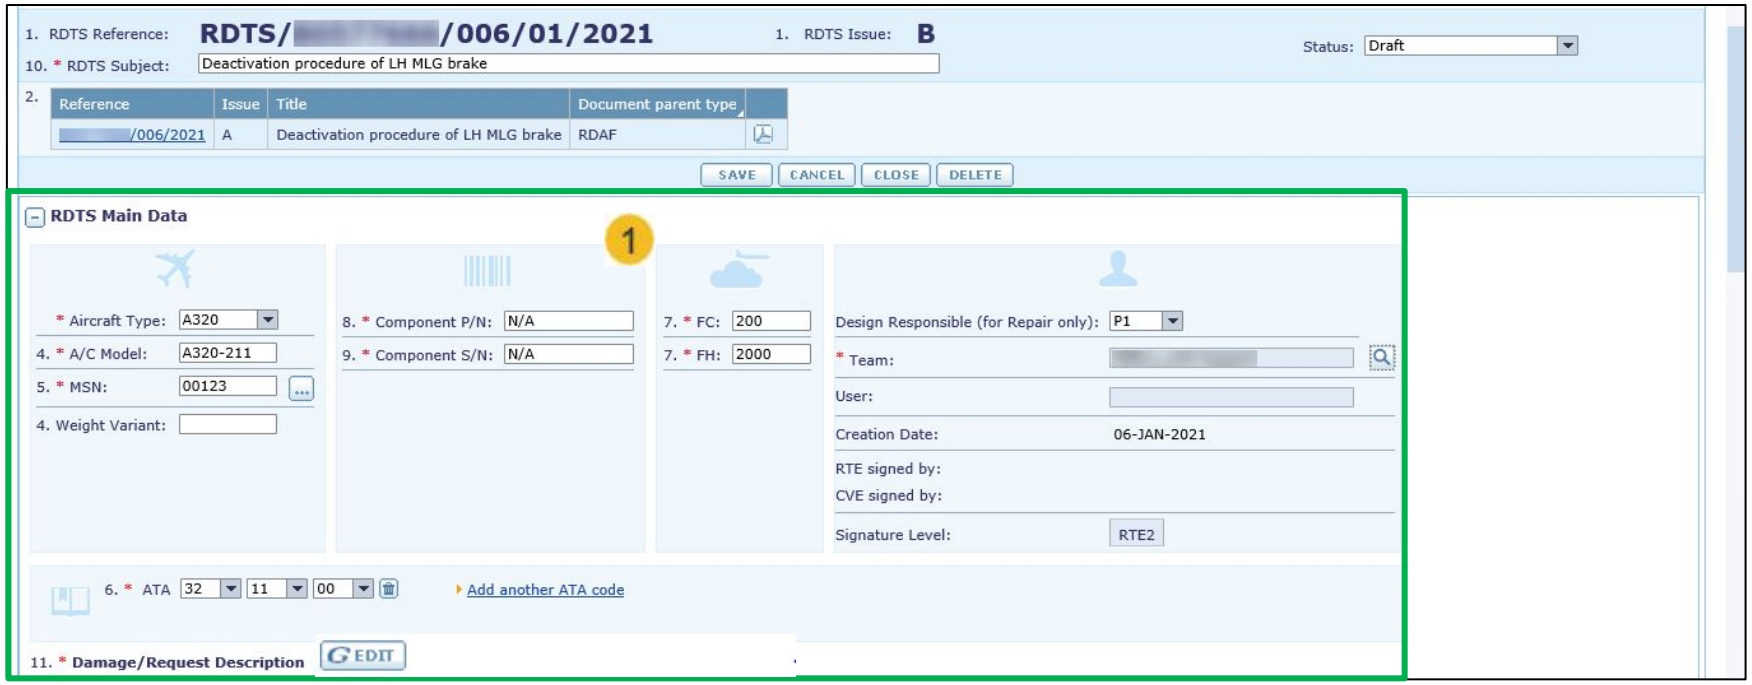
4.3 – Modify RDTS or create a new RDTS issue

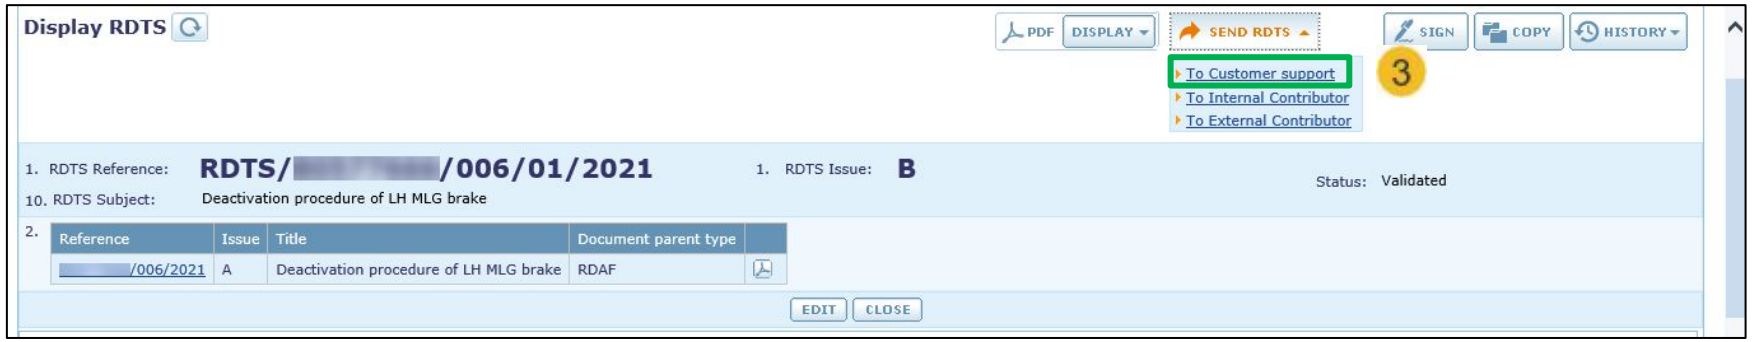
Collaborator
CoE Supplier

When RDTS has been rejected and main data must be updated (with SAS/FAS) (3/4):

The Contributor create new issues of the RDTS, FAS and SAS

1. Main data are unlocked.
2. Update and sign RDTS and FAS/SAS new issues.
3. Send new RDTS issue to Customer Support





AIRBUS

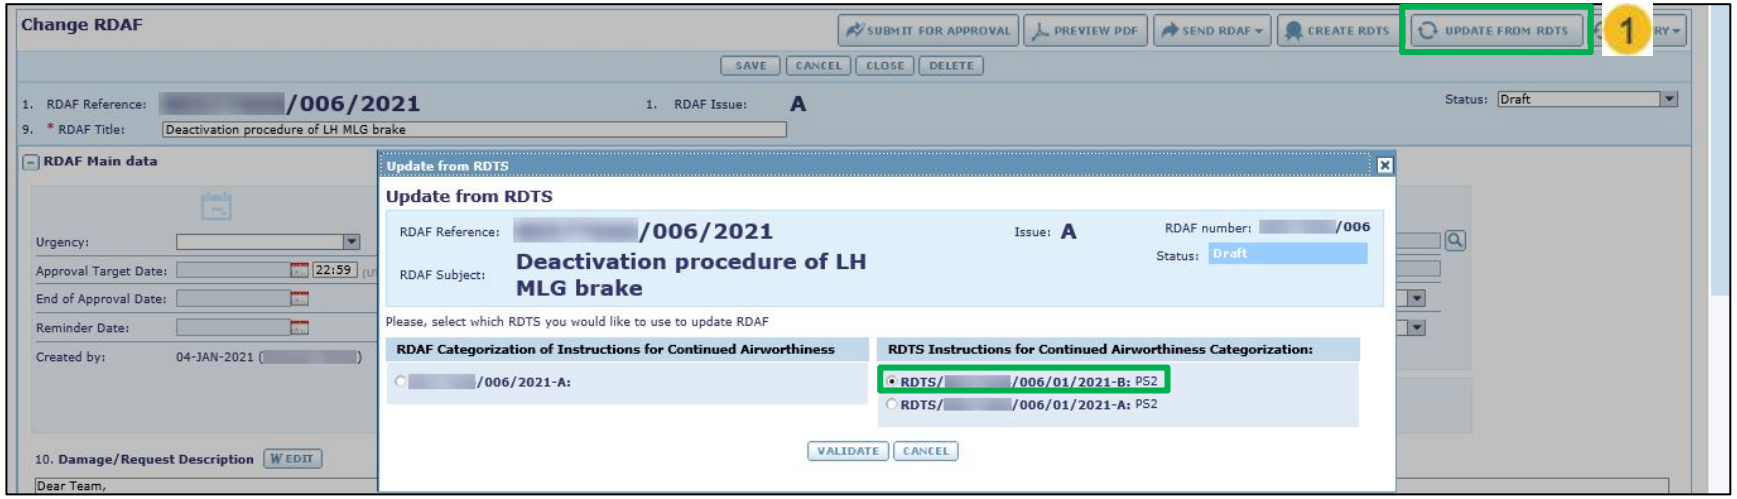
4.1 – Submit RDAF for Approval

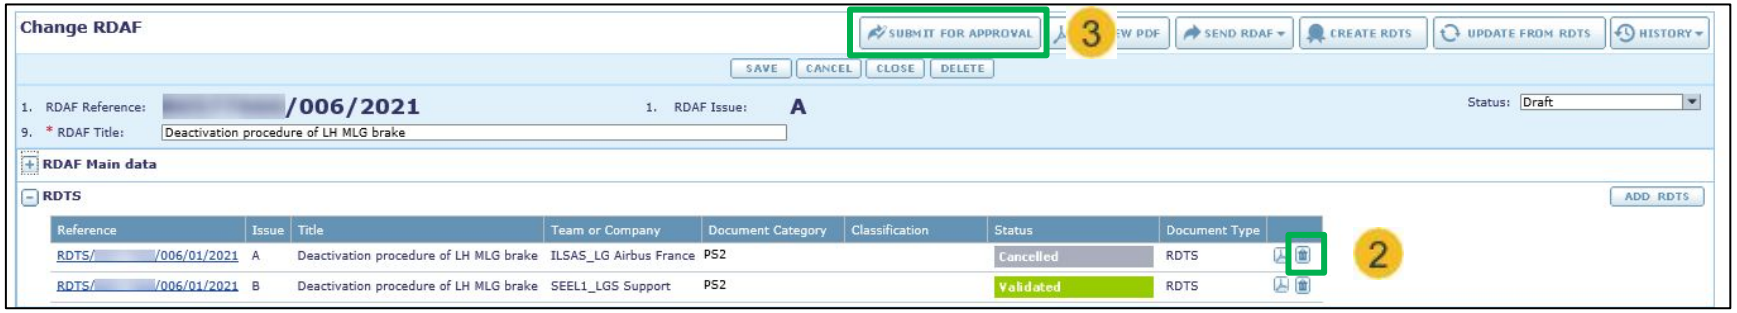
Internal Request Owner
AIB Internal

[When RDTS has been rejected and main data must be updated (with SAS/FAS) (4/4):](#)

The Customer Support submit again the RDAF for approval

1. Update RDAF status to Draft and then with new RDTS data
2. Remove Cancelled RDTS from the RDAF
3. Submit the RDAF for approval





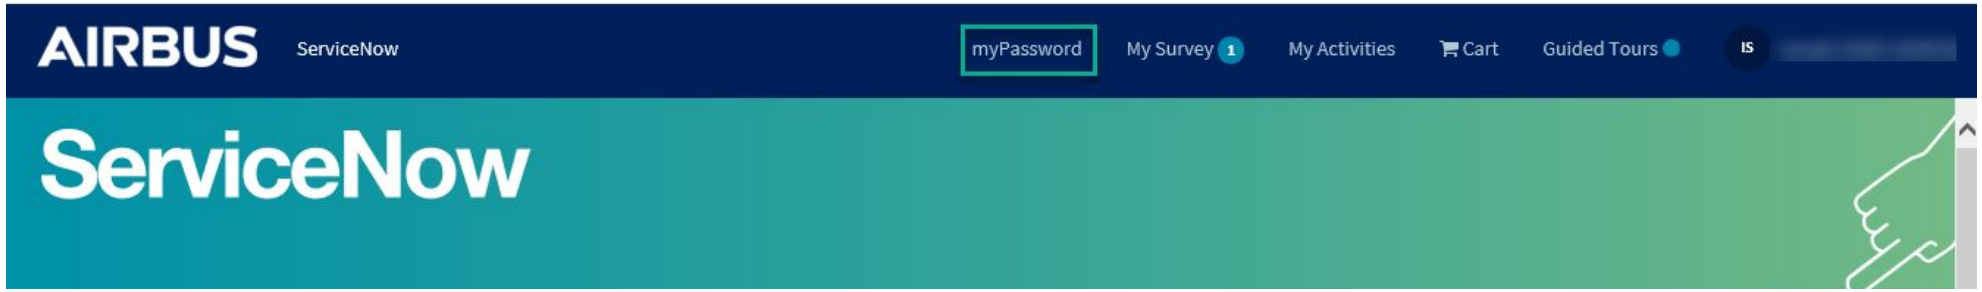
AIRBUS

Appendix 1 – Productive password for Authority

The Authorities must log in TechRequest from time to time to update their password because it is required to approve documents.

If not, they can also use ServiceNow platform (Mypassword tab) to reset their password. Please consult the procedure

Virtual Agent - When opening, please click on "Show Me Everything"



Appendix 2 – Update my signature

1. From the Home Page, Open “**My profile**” section.
2. Click on the “**Edit**” button.
3. In the section « **Electronic Digital Signature** (DAE Stamp and signature) », click on the « **upload** » button.
4. In the « **Upload stamp** » popup, Signature criteria is mentioned:
   Format: *BMP, GIF, JPG, JPEG, PNG*
   Image is resized if it doesn’t respect the 277 x 81 format
5. Click on « **Browse** » button and upload your signature with stamp.
6. Your signature is displayed
7. Click on « **Validate** »
