Tech Request

TECHREQUEST PRACTICAL GUIDE

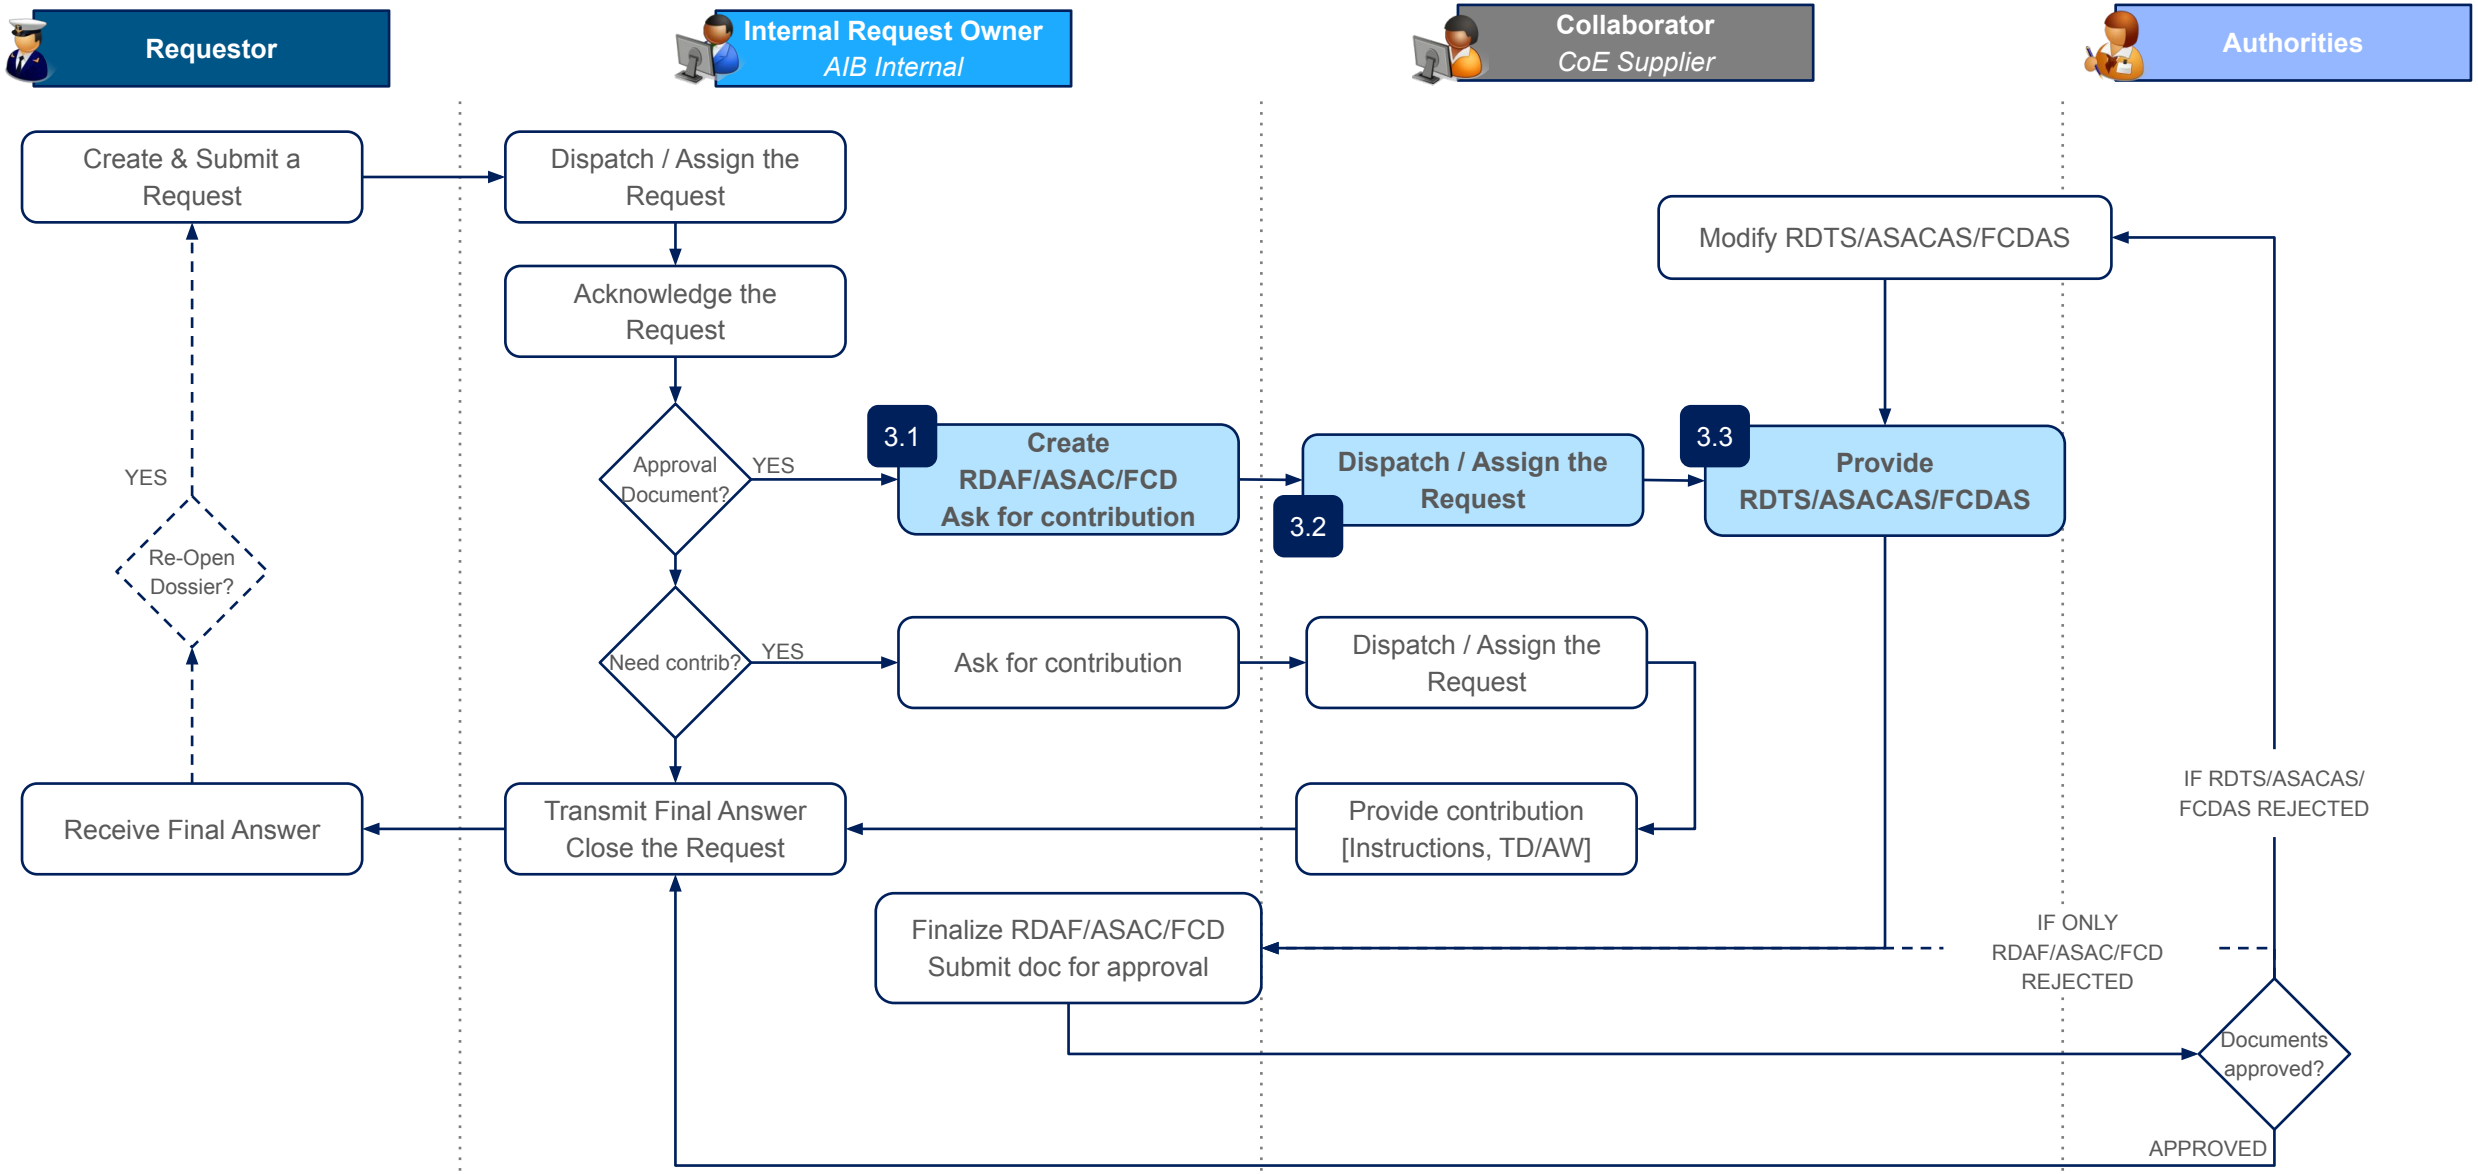
Contribute on a Dossier

Airbus – Customer Digital Experience
TechRequest Deployment & Support

February 1st 2021

AIRBUS

PROCESS OVERVIEW – Contribute on a Dossier



AIRBUS

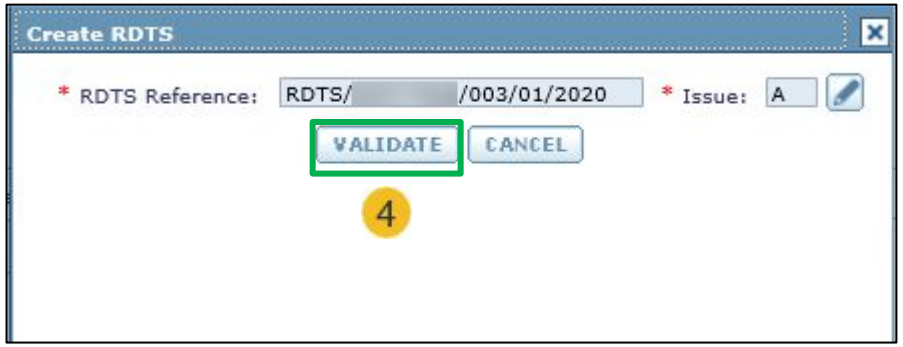
3.1 – Create RDAF and ask for Contribution

Internal Request Owner
AIB Internal

Create RDTS and RDAF → Send Document to Contributors

1. First of all, the user must create a RDAF.
2. As a result, a **RDAF** form **is diplayed** in Edit Mode
3. To ask for contribution, the user **can** Create a RDTS. See the note below
4. By validating, the user automatically generates the RDAF

Note: RDAF can be sent to internal contribution directly. The internal contributor will handle RDTS creation on his side.



AIRBUS

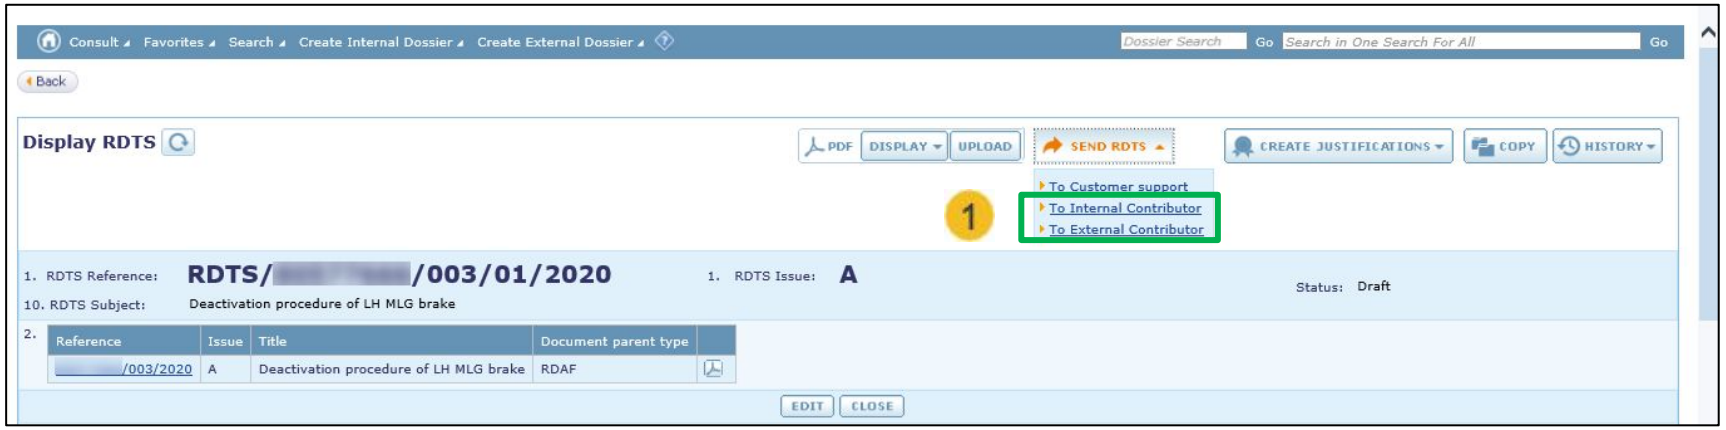
3.1 – Create RDAF and ask for Contribution

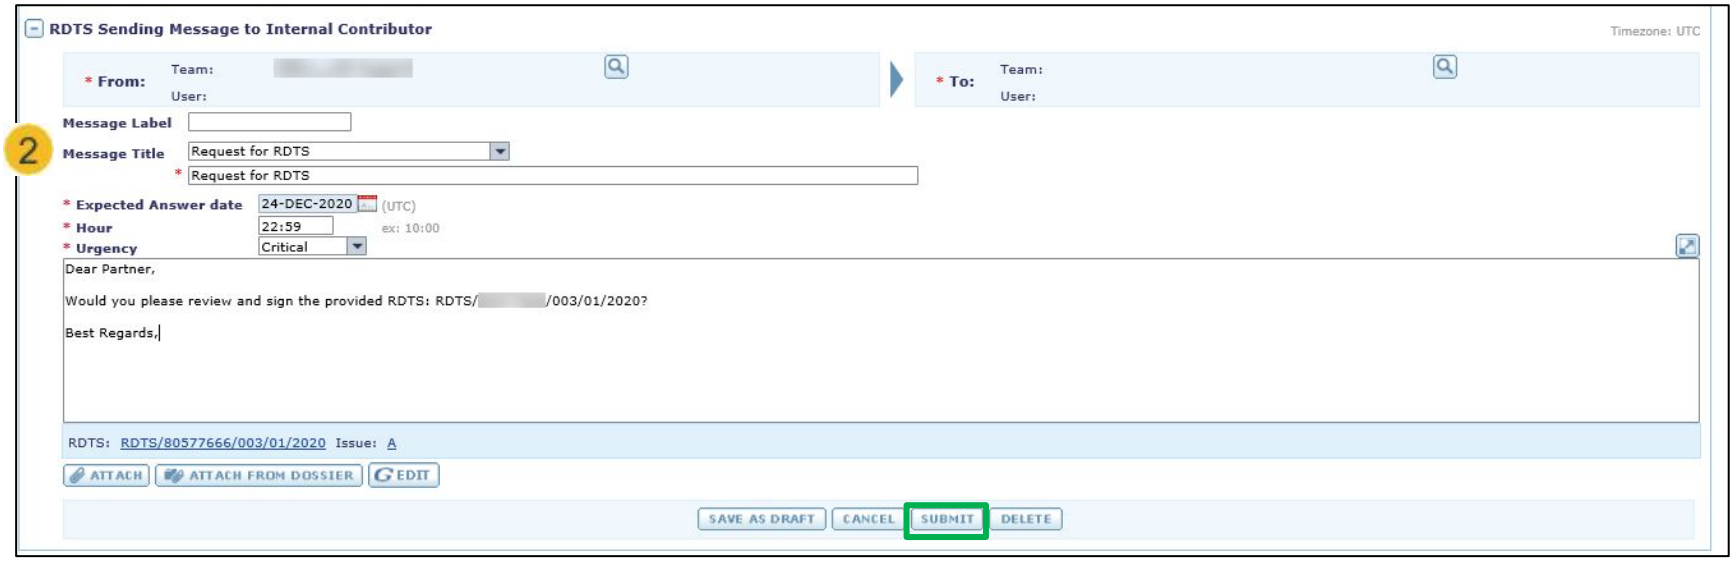
Internal Request Owner
AIB Internal

Create RDTS and RDAF → Send Document to Contributors

1. If the user requires assistance on completing the RDAF/RDTS, he can **send the RDTS to a Contributor.**

2. This open a New message. The user will have to:
   - Fill in the mandatory field (*)
   - Add the message
   - Click on submit.





AIRBUS

3.2 – Dispatch & Assign the Request

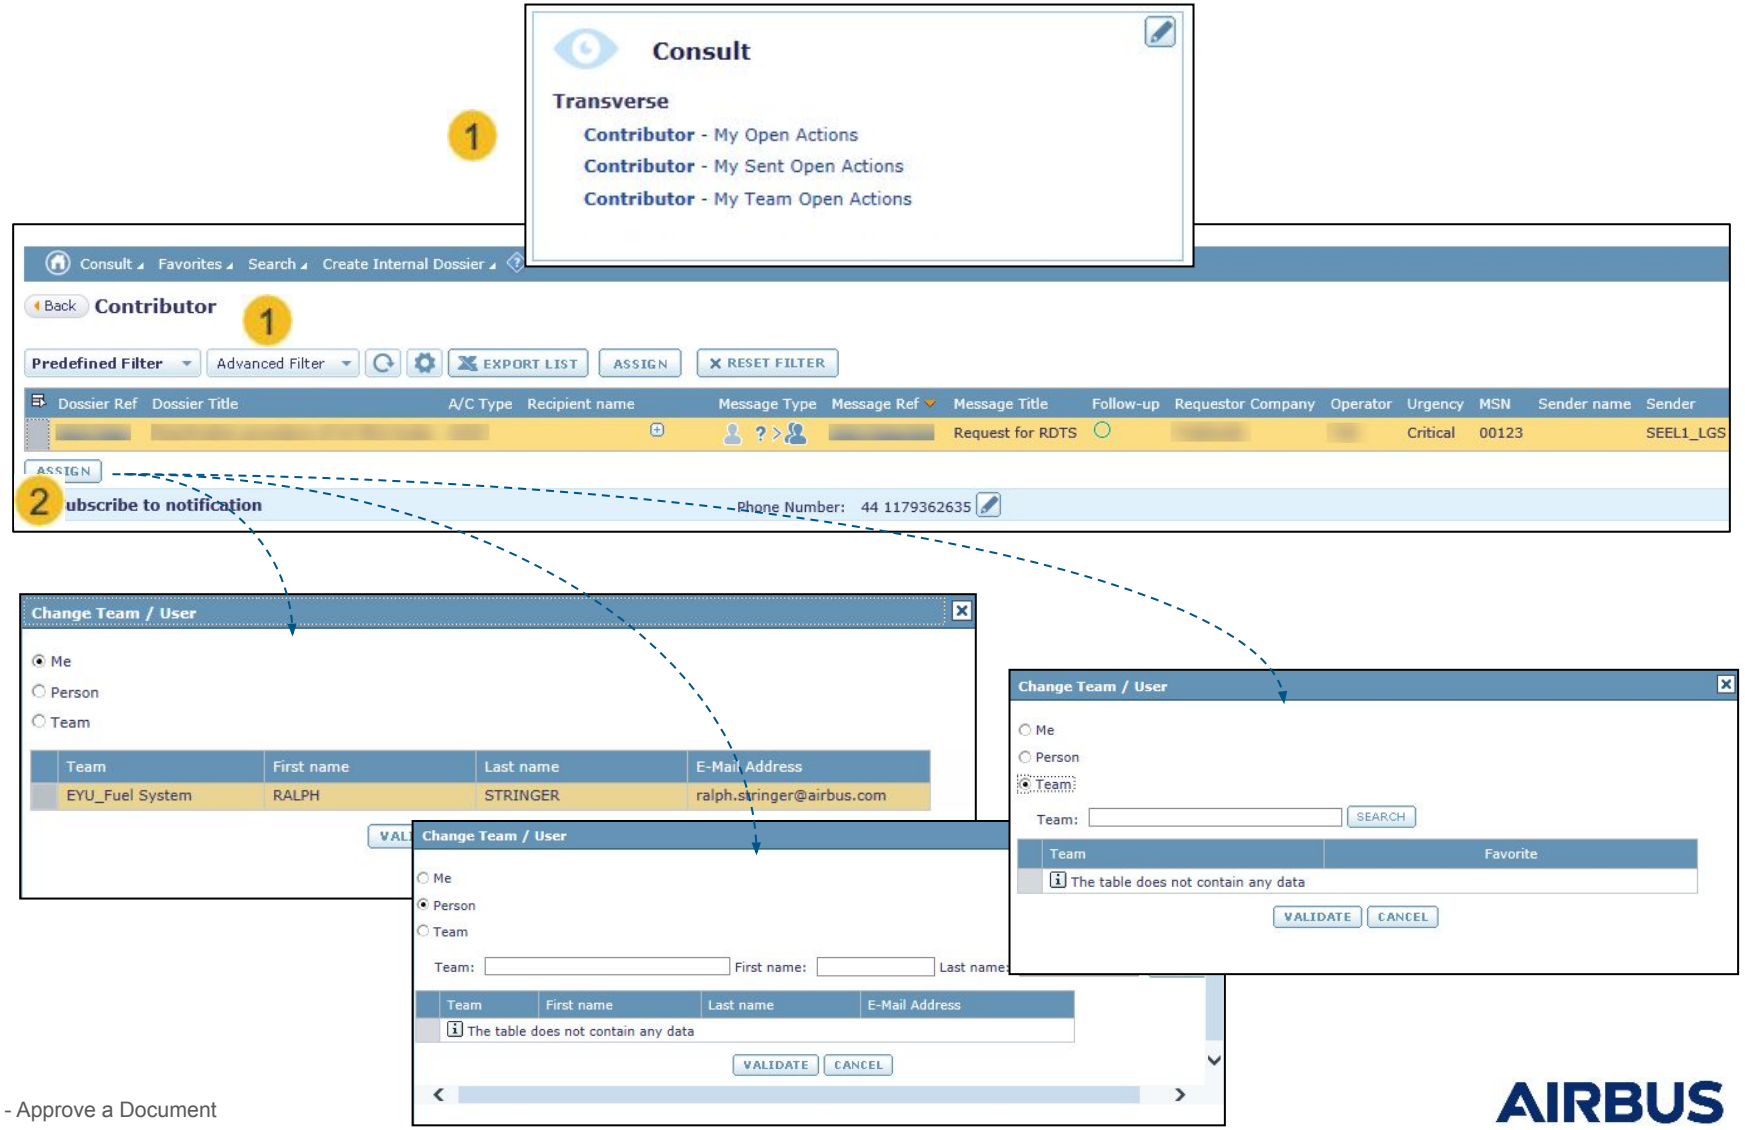
Collaborator
CoE Supplier

Dispatch the Requests

1 In the **Contributor dashboard**, select the request you want to assign by selecting the line (**don't click** on the dossier's hyperlink).

You can select several lines using the "CTRL" key of your keyboard.
You can select all lines by clicking on the "Table selection menu".

2 • Click on "**Assign**" button to assign the request to :
- yourself
- a Person Enter a name or search
- a Team Enter a team or search



AIRBUS

3.3 – Provide RDTS

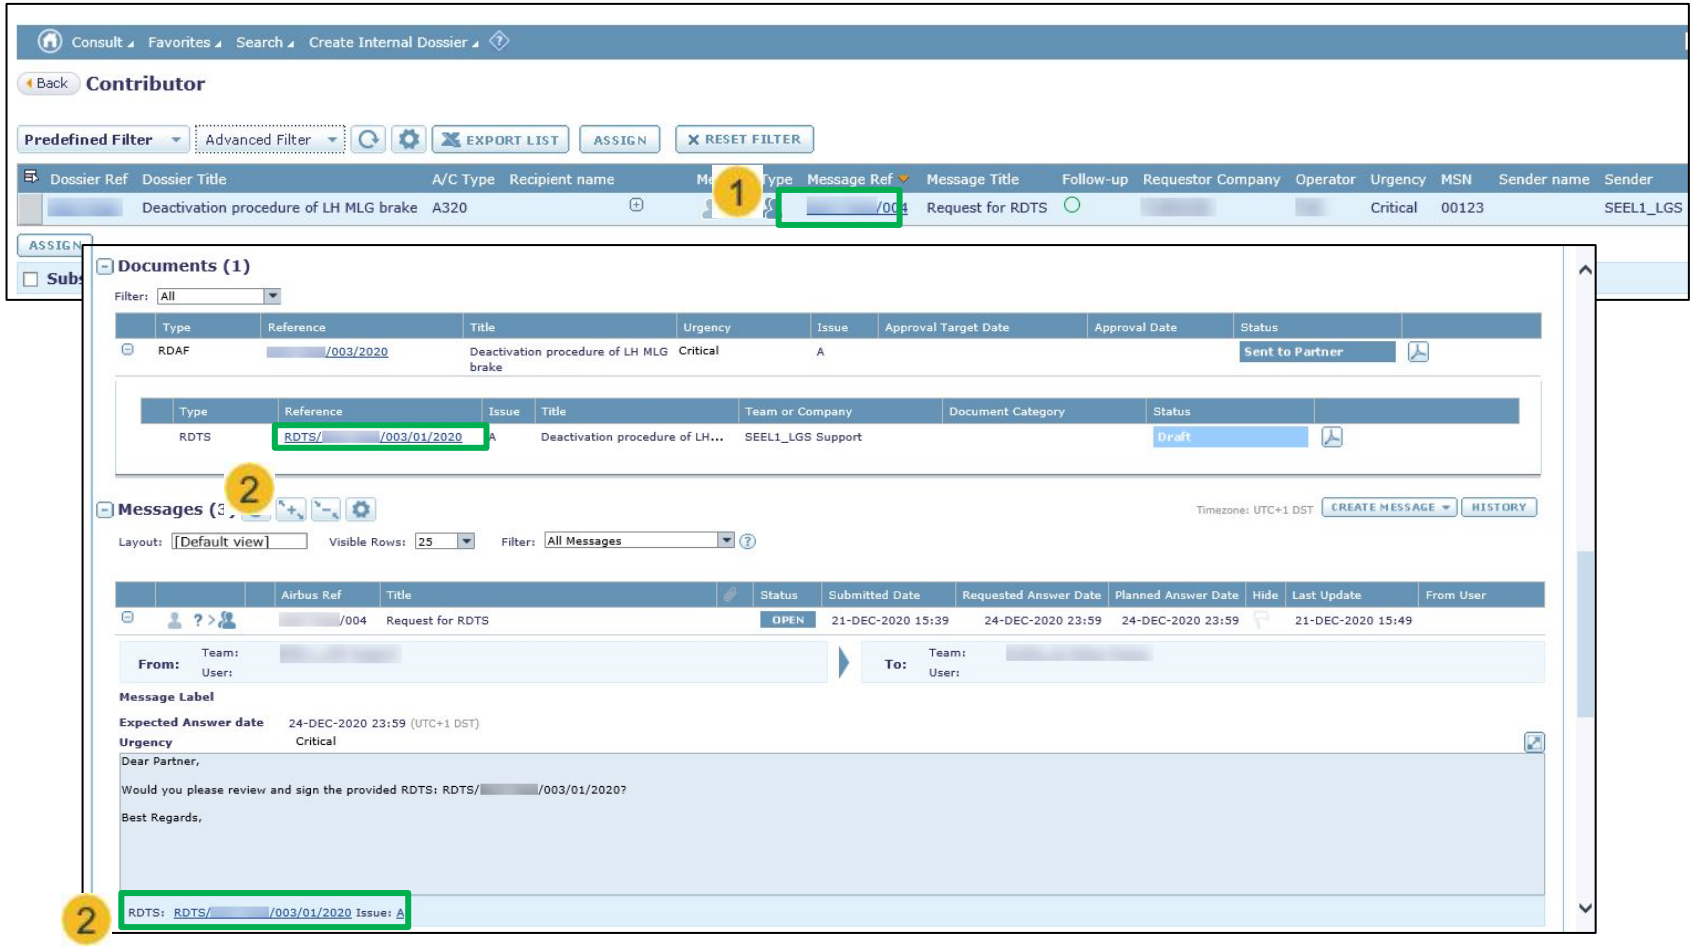
Collaborator
CoE Supplier

Consult the RDTS → Complete and Validate the RDTS → Send the RDTS

1. From the **Contributor dashboard**, open the Customer Support message.

2. The RDTS can be accessed via two points:
   - The link below the message.
   - The **Documents** section.

   If your message contains a RDAF instead of a RDTS, open the RDAF and create the RDTS by your own



AIRBUS

3.3 – Provide RDTS

Collaborator
CoE Supplier

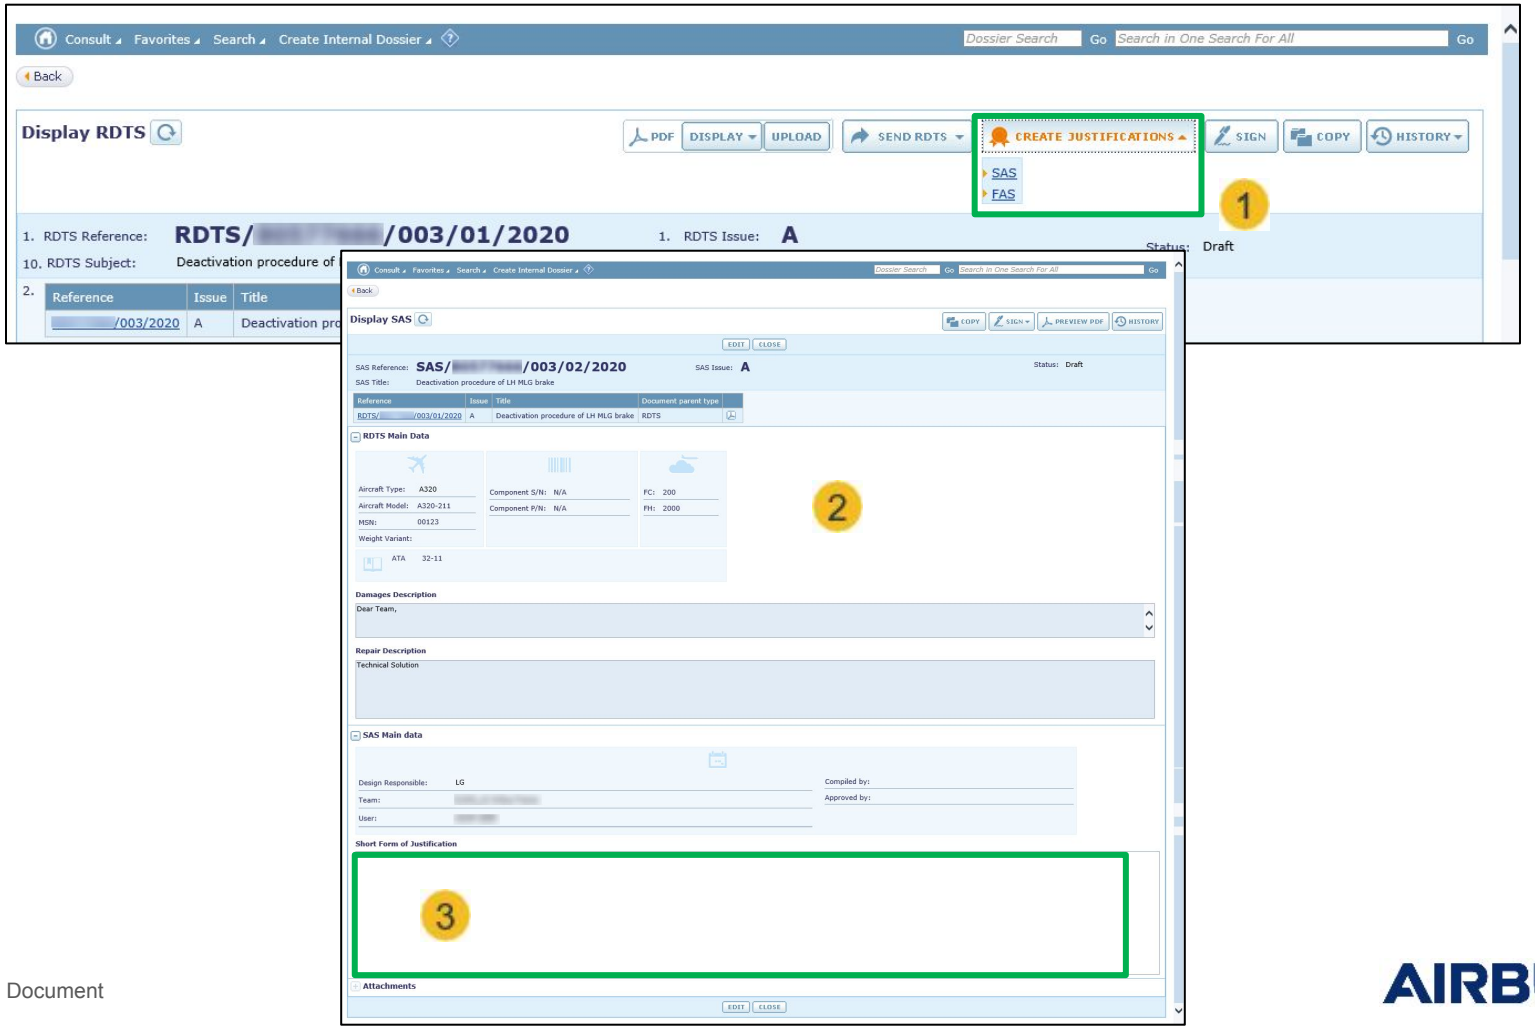
Consult the RDTS → **Complete and Validate the RDTS** → Send the RDTS

For repair only

1. From the RDTS screen click on the "**Create Justifications**" button and select **FAS or SAS**.

2. The SAS or FAS is displayed
   - The reference and the issue are defined by default
   - Main data are retrieved from the RDTS
   - The Design Responsible is initialized according to your team. You can update it if needed

3. Complete the « Short Form of Justification ». The WordEdit function can be used to insert object or for text formatting (refer to Appendix 2 for more information).



AIRBUS

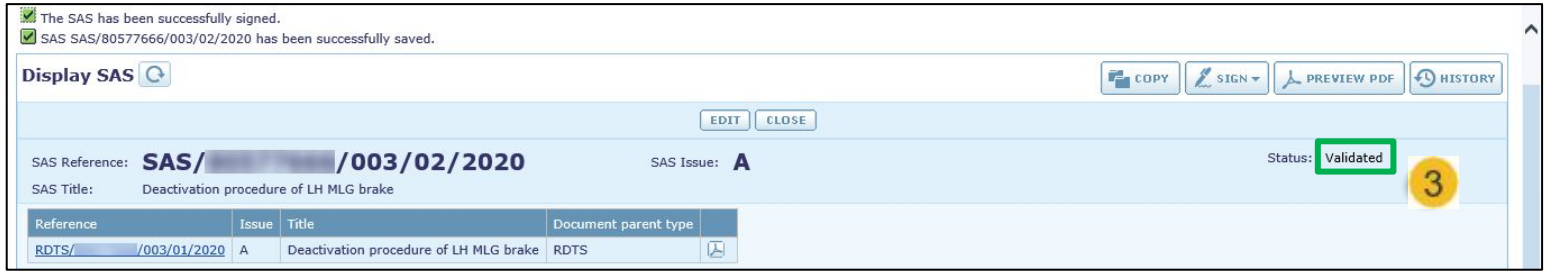
3.3 – Provide RDTS

Collaborator
CoE Supplier

Consult the RDTS → **Complete and Validate the RDTS** → Send the RDTS

For repair only

1. Sign as "Compiler".
2. The PDF file is downloaded for consultation
   Click on "Sign Document".
   Note: You need to have uploaded your signature in your profile (see Appendix 1)
3. The status is set to "**Validated**".
   Note: Any user having same signature right as the current signature can un-sign a "Validated" TD by setting its status to "Draft".
4. The SAS/FAS can then be signed by the "**Approver**".
5. When the SAS/FAS is signed twice, its status is set to "**Approved**". The FAS/SAS is no more updatable.



AIRBUS

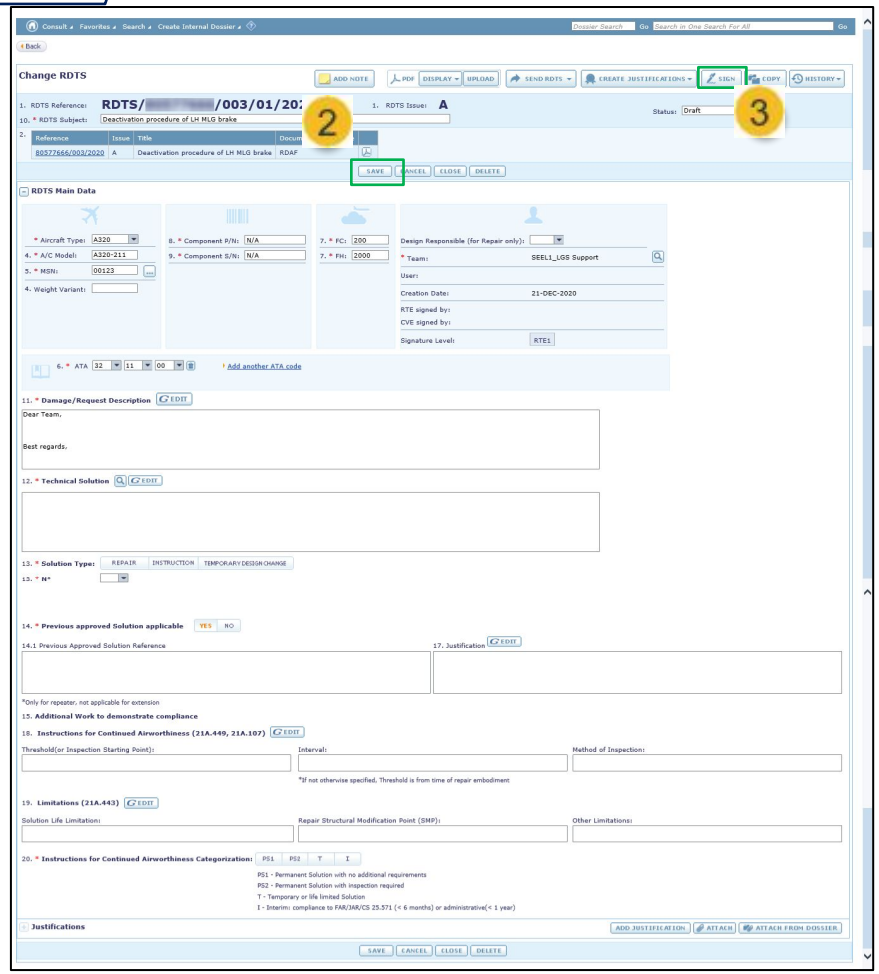
3.3 – Provide RDTS

Collaborator
CoE Supplier

Consult the RDTS → **Complete and Validate the RDTS** → Send the RDTS

Complete the RDTS form:

1. Edit and fill the RDTS Main Data
2. **Save** the document
3. Once the document is complete, **sign** the RDTS



1

The RDTS form displays the following information data:

- RDTS reference, Subject and issue
- RDAF information / Document (PDF)
- Operator Request
- Technical Answer
- Previous Approved RDAF Applicable
- Additional Work to demonstrate compliance
- Additional Work to demonstrate compliance to Applicable Certification Requirements
- Instructions for Continued Airworthiness
- Limitations
- RDAF Category
- Signature Level
- Justifications

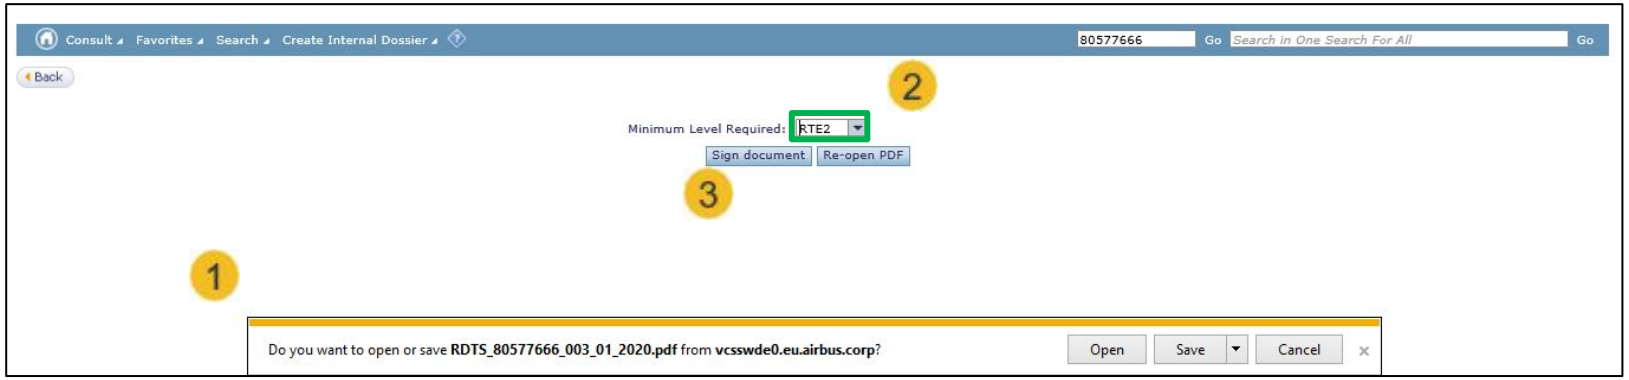
AIRBUS

3.3 – Provide RDTS

Collaborator
CoE Supplier

Consult the RDTS → **Complete and Validate the RDTS** → Send the RDTS

1. When signing the RDTS, the PDF file is downloaded for consultation
2. Select the appropriate Signature level
3. **Sign** the Document
4. The RDTS status is automatically set to **Validated**



4

Note1: Any Internal Frequent user can ***Un-Sign*** *a Validated RDTS* by setting its status to ***Draft***

Note2: At the *sign step of the RDTS*, if at least one linked Defect Report *is not at the **validated** status*, signature cannot be done

AIRBUS

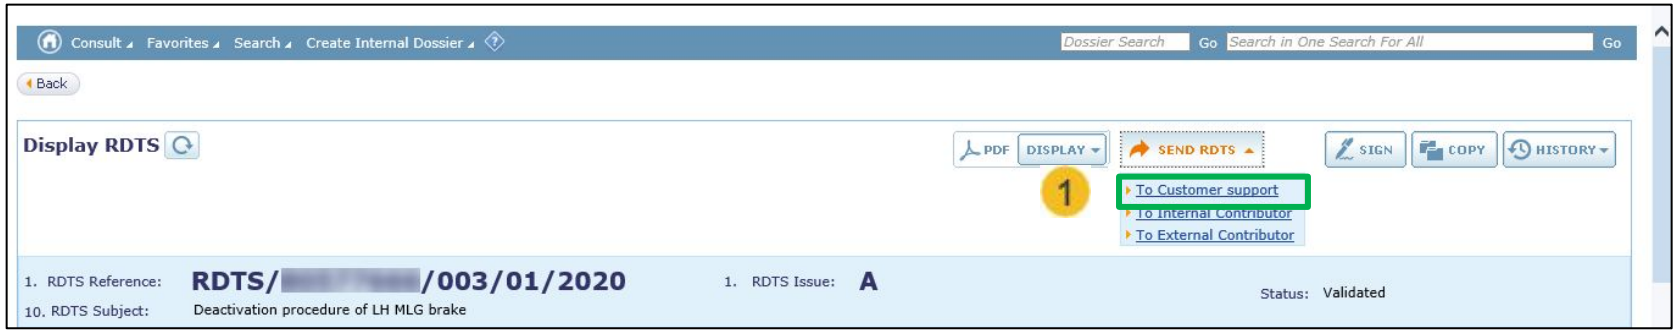
3.3 – Provide RDTS

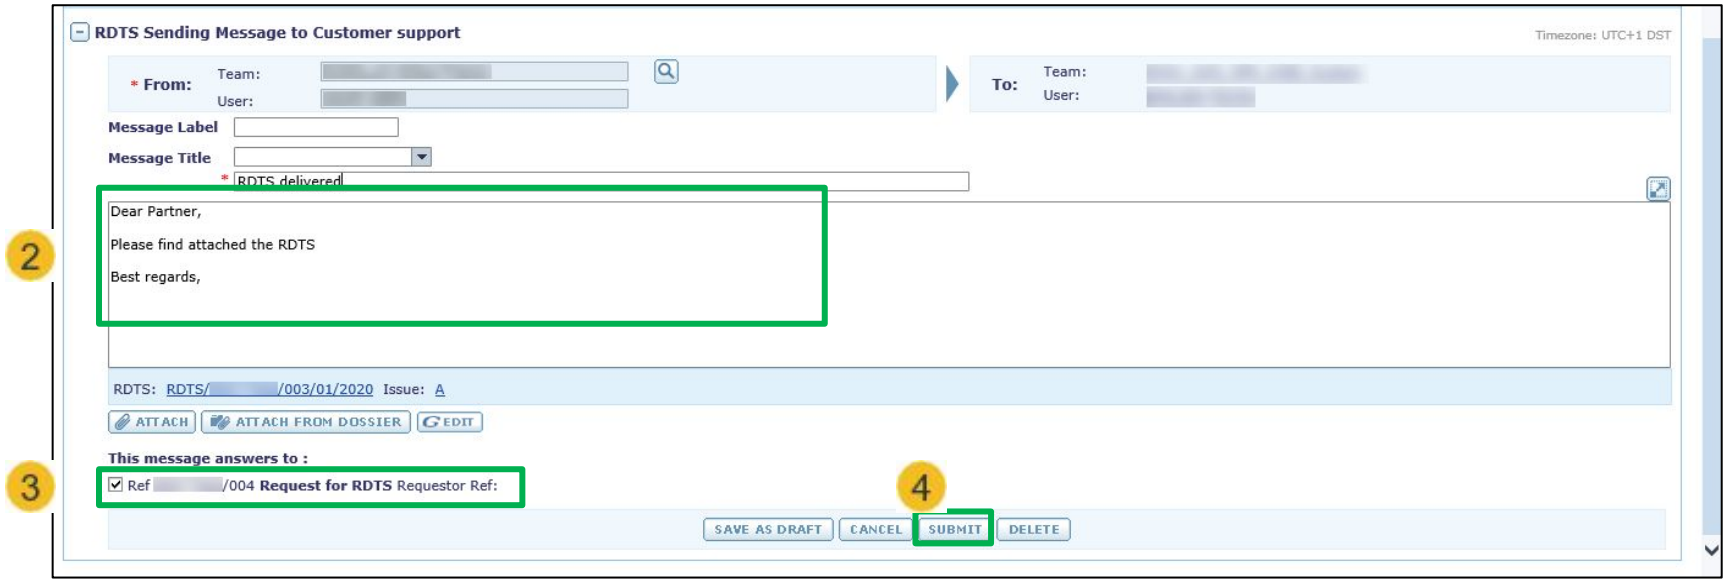
Collaborator
CoE Supplier

Consult the RDTS → Complete and Validate the RDTS → Send the RDTS

1. Send the RDTS to Customer Support with the **Send RDTS** button
2. Write your message
3. Tick the Airbus internal request owner's question "This message answers to".
4. **Submit** your Message

The Customer Support question is closed and the RDAF status is set at **Received from Partner**





AIRBUS

Appendix 1 – Update my signature

1. From the Home Page, Open “**My profile**” section.
2. Click on the “**Edit**” button.
3. In the section « **Electronic Digital Signature** (DAE Stamp and signature) », click on the « **upload** » button.
4. In the « **Upload stamp** » popup, Signature criteria is mentioned:
   Format: *BMP, GIF, JPG, JPEG, PNG*
   Image is resized if it doesn’t respect the 277 x 81 format
5. Click on « **Browse** » button and upload your signature with stamp.
6. Your signature is displayed
7. Click on « **Validate** »
