Practical guide

Internal Requestor

Airbus – Customer Digital Experience

TechRequest Operations

September 2023

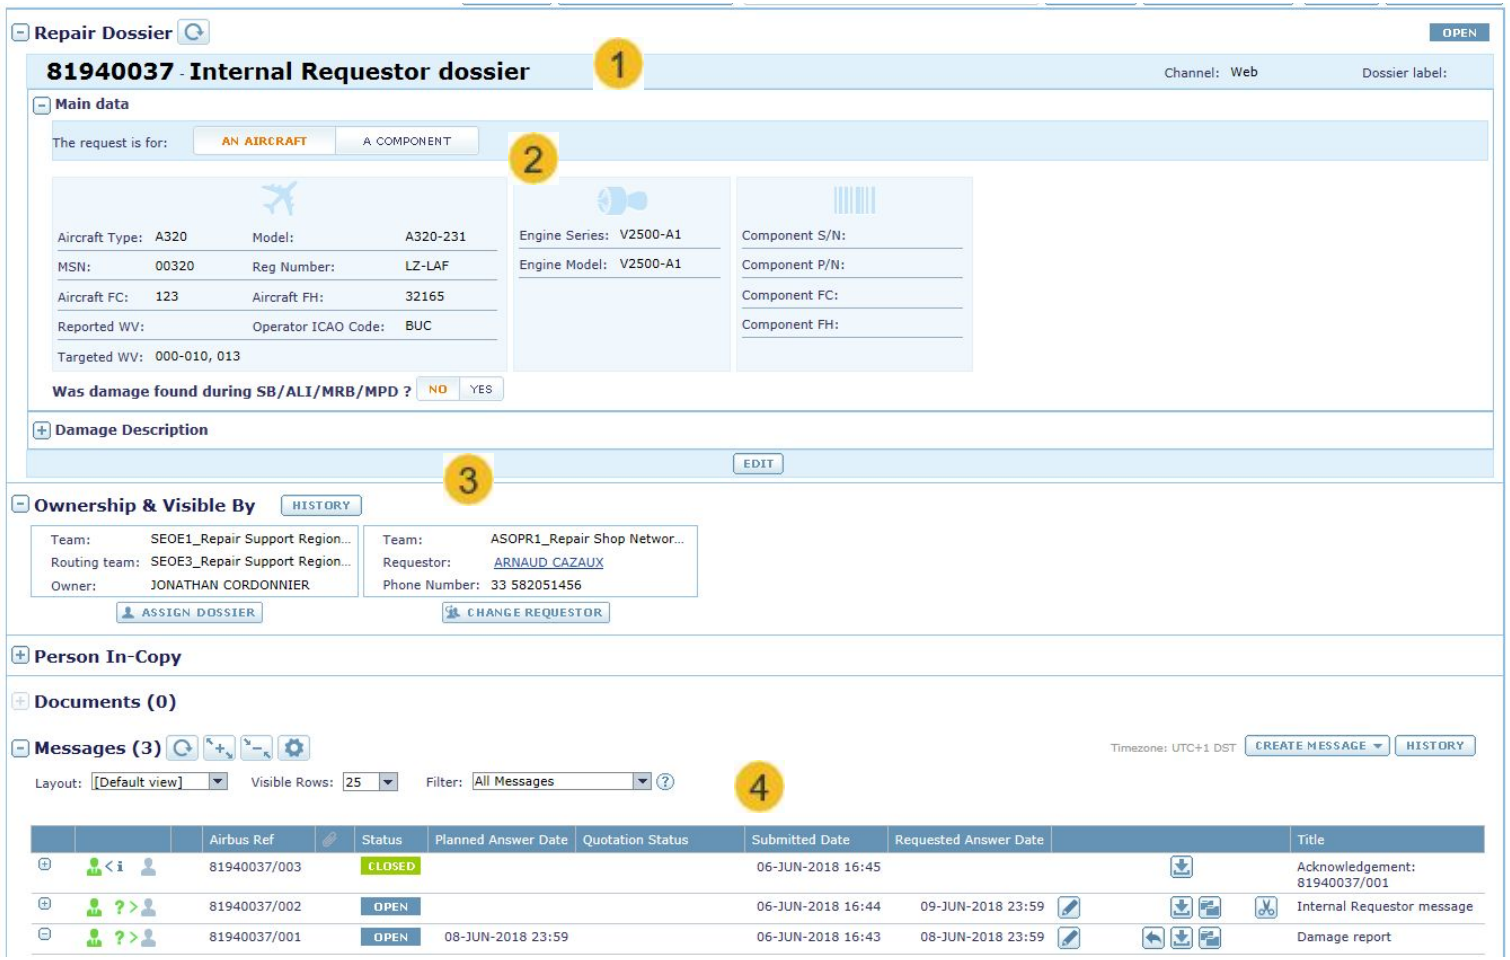
AIRBUS

Introduction

TechRequest Key Concepts

A Technical Request is made of:

- **One Dossier**
  - Its reference number & title
  - Its Main data (Dependent to Domain)
  - Its Owner
- **Several Messages**
  - Question to Airbus
  - Answer from Airbus
  - Information from Airbus
  - Quotation from Airbus



When you create a new technical request, you create a new Message to Airbus within a new Dossier.
The Messages workflow of your request is stored in the Dossier

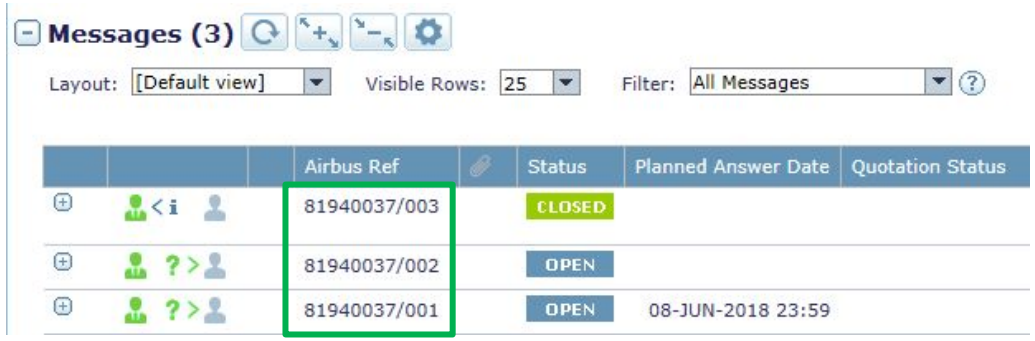
Introduction

TechRequest Key Concepts

Dossiers & Messages reference numbers (Airbus Ref.)

- When you create a new Technical Request, an Airbus Reference is automatically associated to the Dossier
  e.g. Dossier Ref: 80000001

- When you create a new Message within the Dossier, an Airbus Reference is automatically associated to the Message
  The reference always contains the Dossier Reference
  e.g. Message Ref: 800000001/001



Dossiers & Messages status

Dossier Status

DRAFT — Request is saved as Draft.
Not submitted to Airbus

OPEN — Request has been submitted to Airbus.
Final answer not yet provided

CLOSED — Final answer has been provided

Messages Status

New Message (Unread)

Message (Read)

DRAFT — Message is saved as draft
Not Sent

OPEN — Answer hasn't been provided yet

AIRBUS

Create & Send a Request

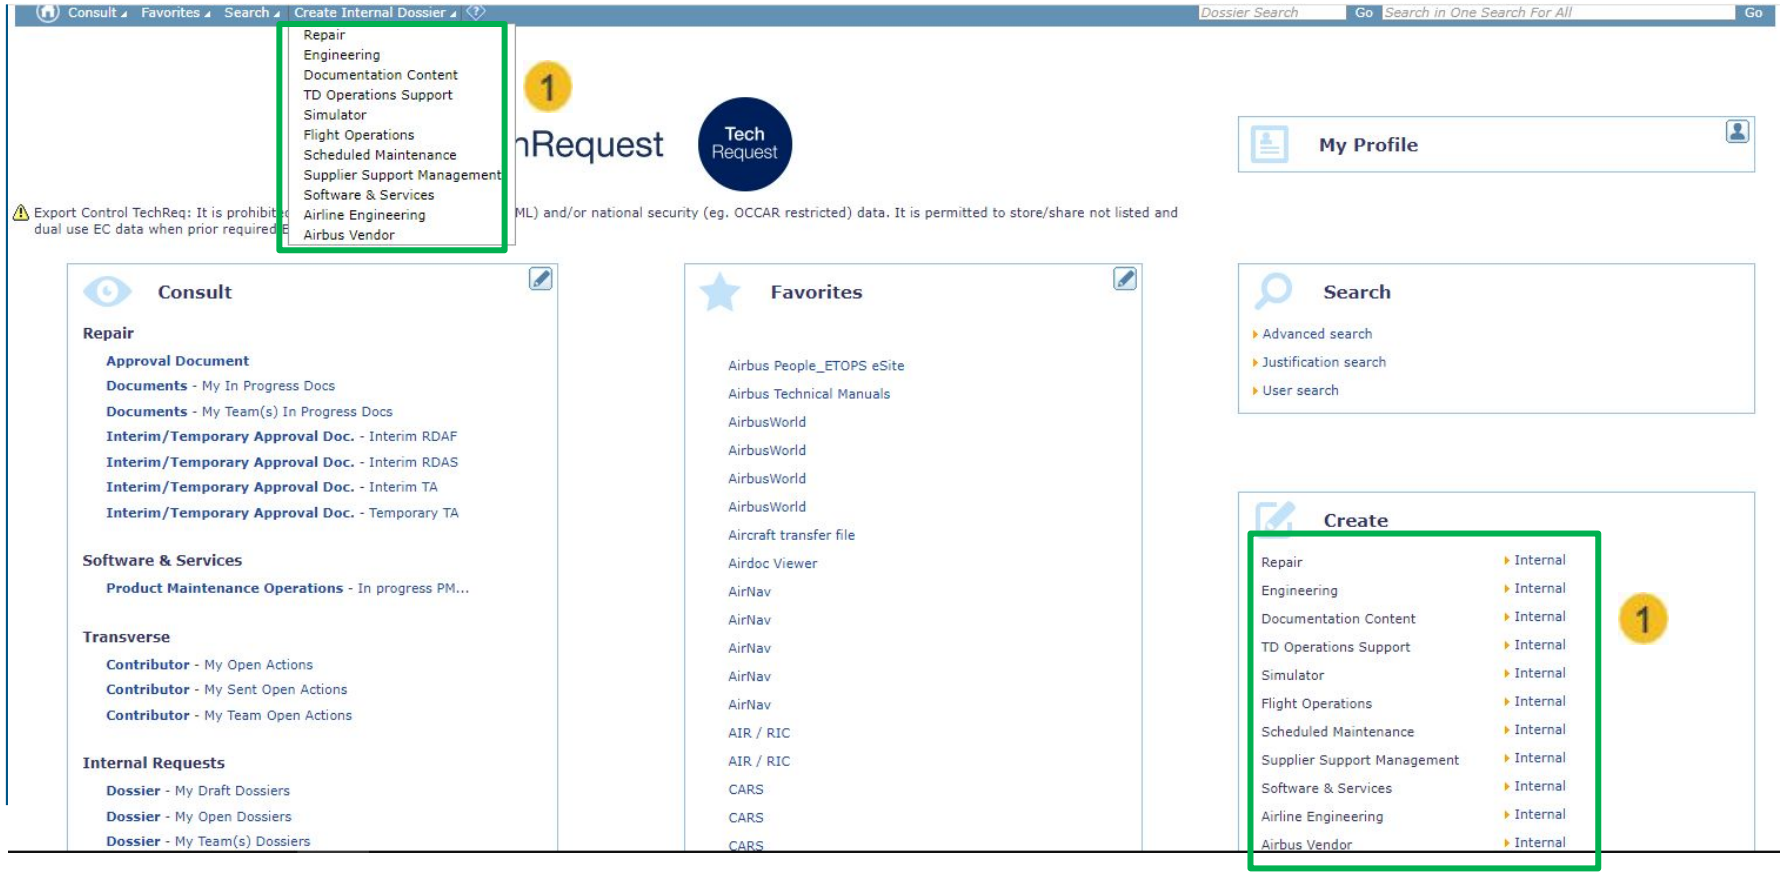
Access to TechRequest | HomePage / Dashboards | **Create your Technical request** | Update your technical request | Follow your request with cockpits | Consult the Customer Support answer | Re-open your dossier

1 From the Home Page, in the *Create* menu select the type of request you want to create.



AIRBUS

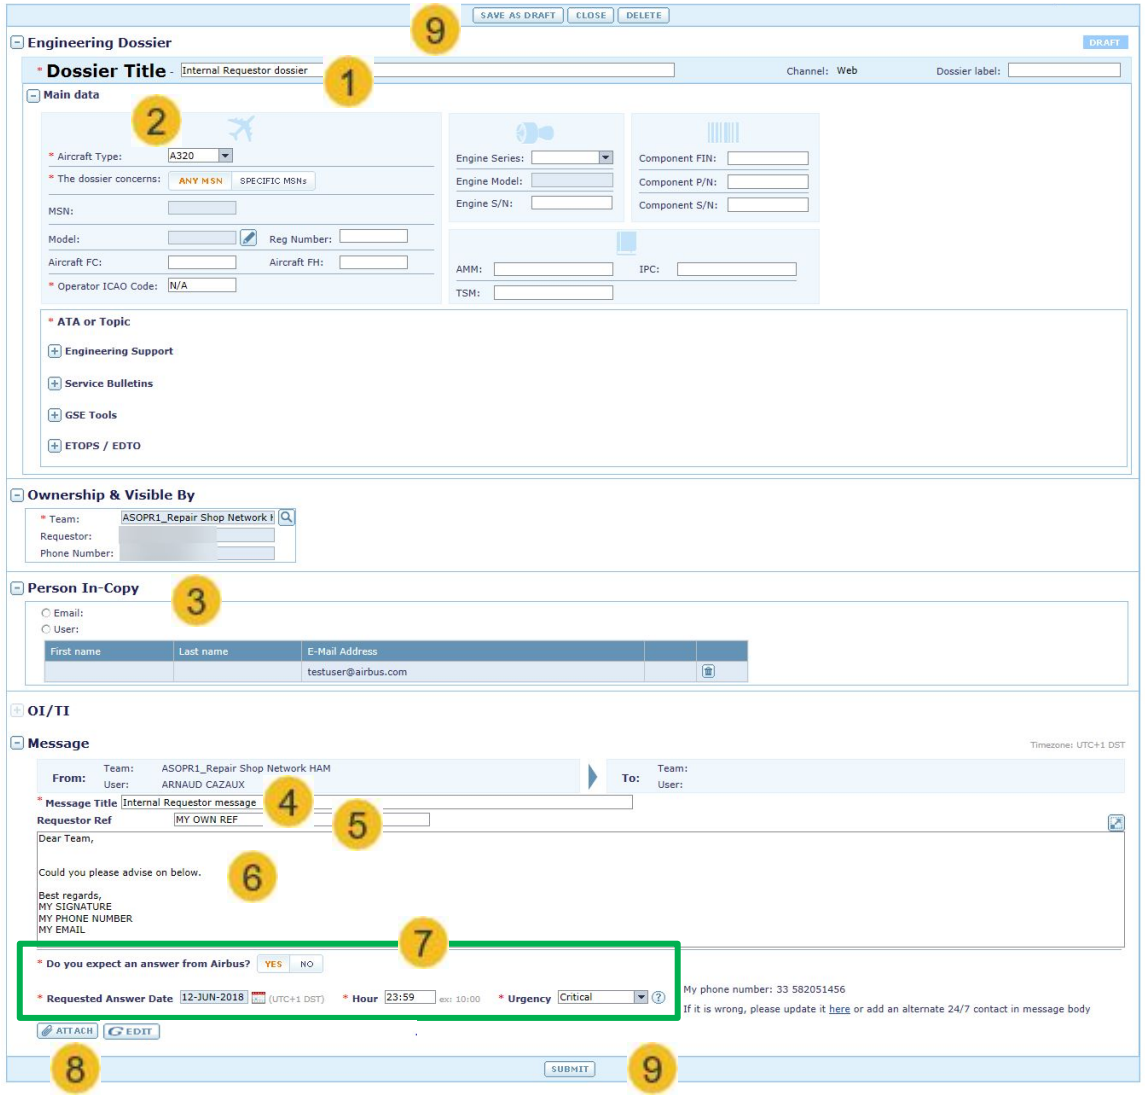
Create & Send a Request

Access to TechRequest → HomePage / Dashboards → **Create your Technical request** → Update your technical request → Follow your request with cockpits → Consult the Customer Support answer → Re-open your dossier

1. Fill the dossier title
2. Fill the main data
3. You can add persons in copy in order to send the automatic notifications
4. Fill the message title
5. You can add your own reference in the *Requestor Ref* field
6. Fill the message content
7. Select an urgency and a target date
8. You can attach one or several files.
9. Submit your request. You can save your dossier as Draft if you want to submit it later.

- A message confirm the dossier creation:

Your Dossier ref 81940042 has been successfully submitted.



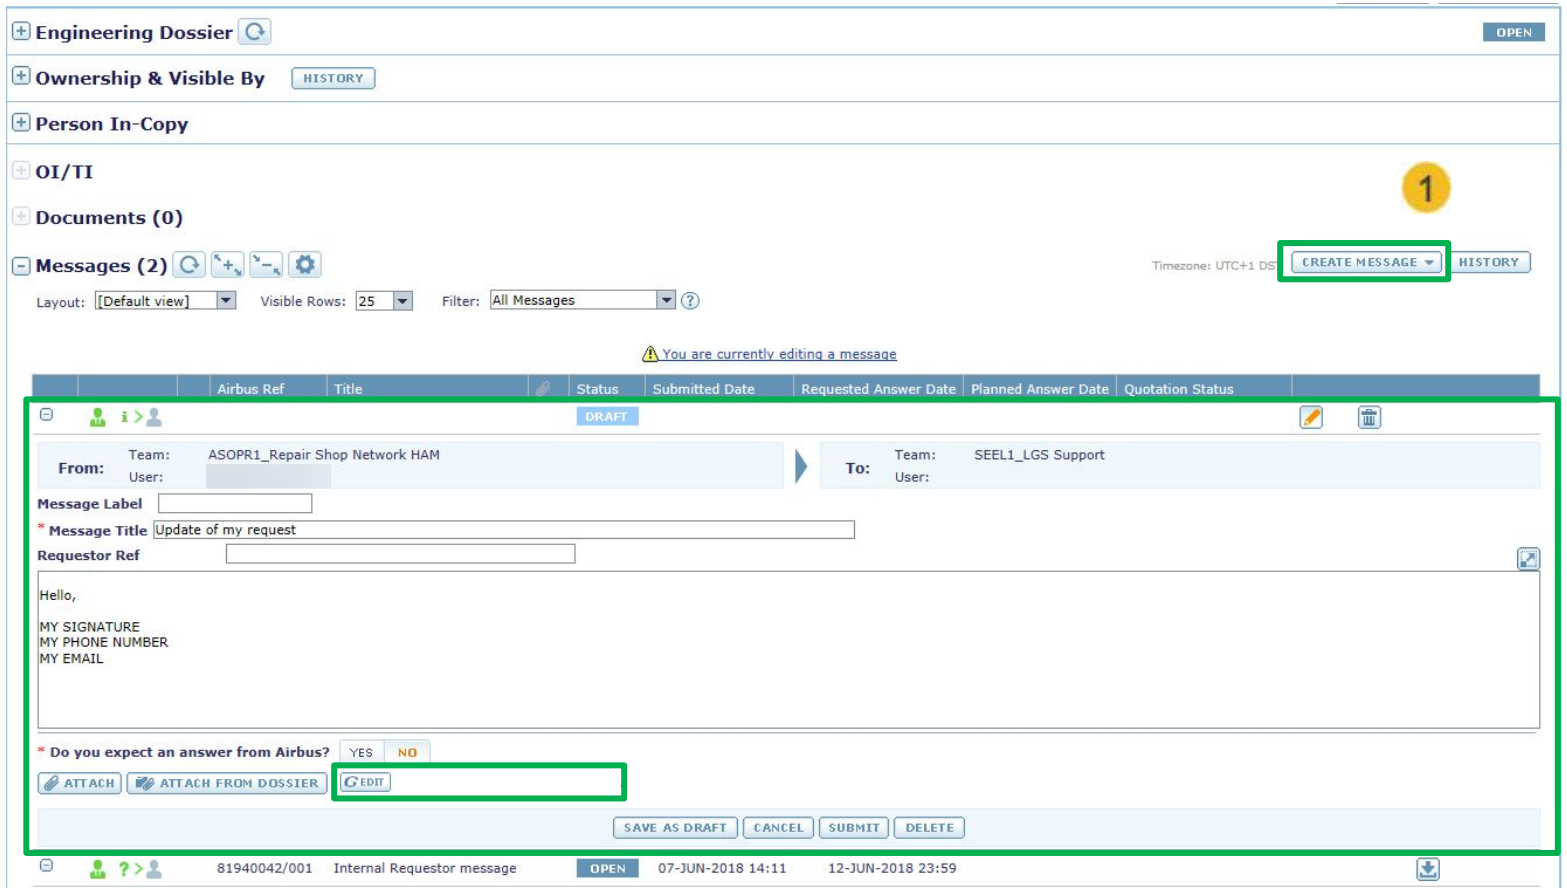
AIRBUS

Create & Send a Request

Access to TechRequest → HomePage / Dashboards → Create your Technical request → **Update your technical request** → Follow your request with cockpits → Consult the Customer Support answer → Re-open your dossier

1. Should you need to update your dossier with additional information, you just need to create a new message.

- ***Note:*** Any user being part of the requestor team can update a dossier of his team.

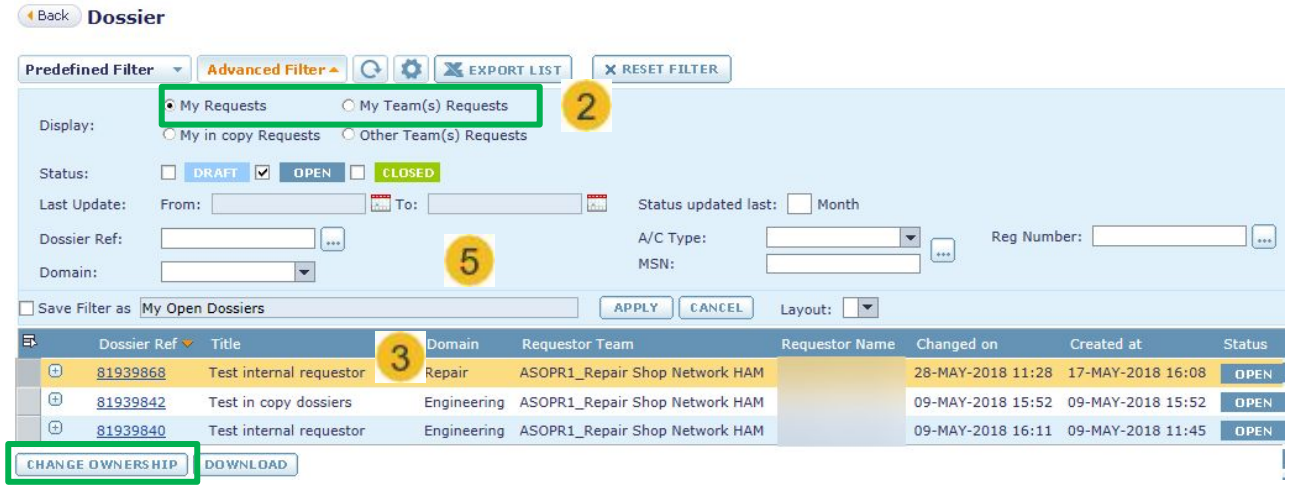


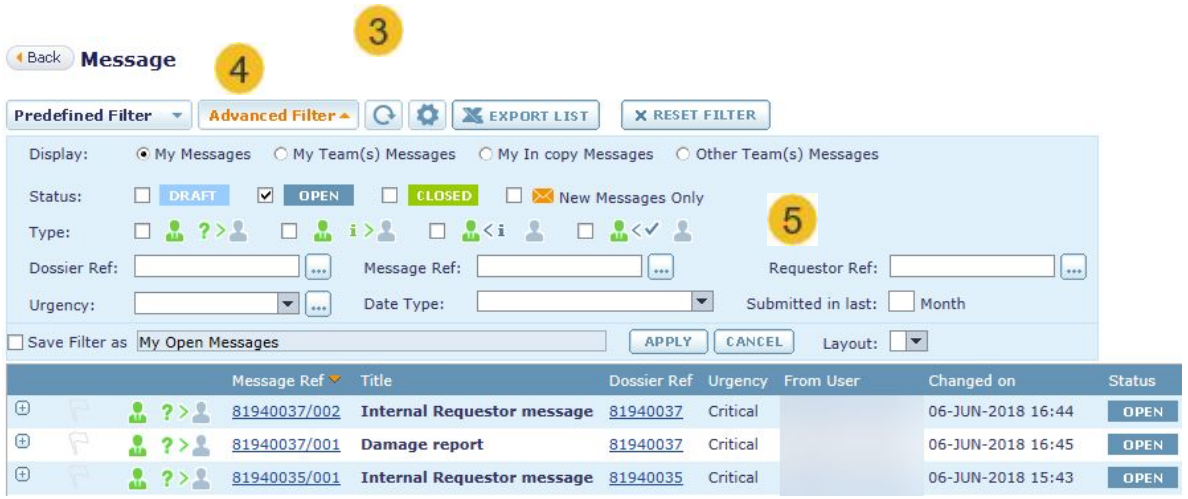
AIRBUS

Create & Send a Request

Access to TechRequest → HomePage / Dashboards → Create your Technical request → Update your technical request → **Follow your request with cockpits** → Consult the Customer Support answer → Re-open your dossier

1. You can follow your dossiers and messages through the *Internal Requests* cockpits.
2. From the *Dossiers* cockpit you can display your dossier and your team's dossiers.
3. You can assign the dossier to another member of your team by selecting a line and with the *Change Ownership* button.
4. From the *Messages cockpit you can consult messages and your team's messages*
5. *Several filters are available in those cockpits in order restrict your search according to dossier and messages data.*





AIRBUS

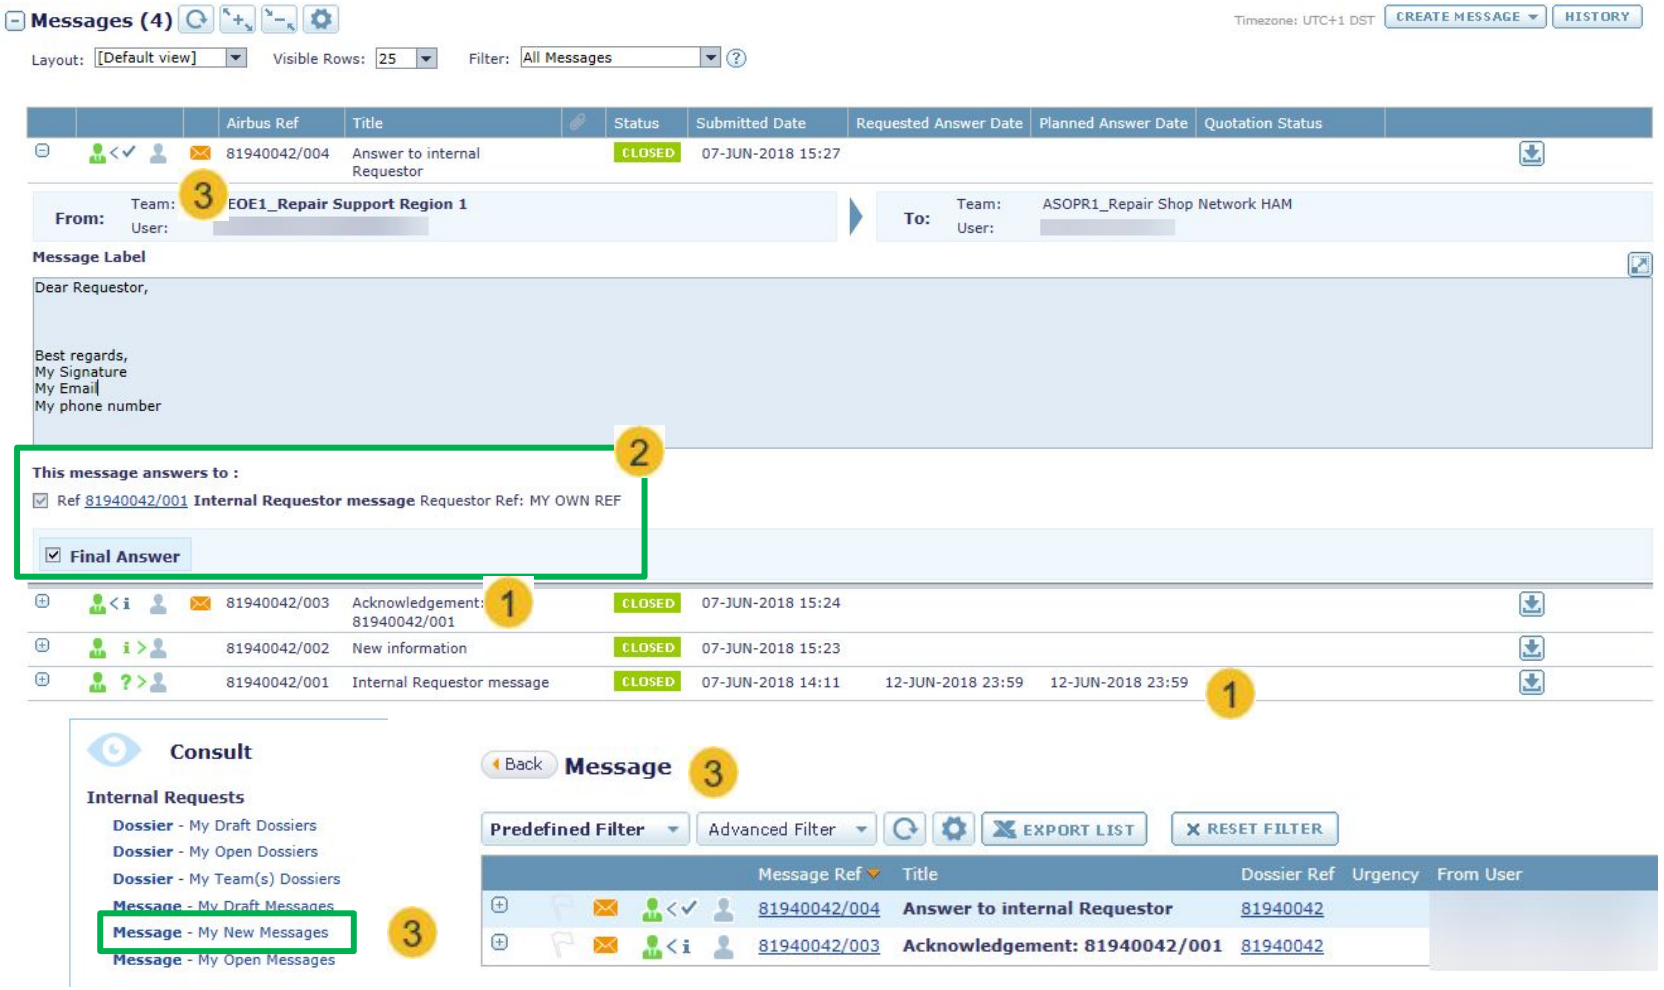
Create & Send a Request

Access to TechRequest | HomePage / Dashboards | Create your Technical request | Update your technical request | Follow your request with cockpits | **Consult the Customer Support answer** | Re-open your dossier

1. After the submission of your request, the Customer Support provide you with a planned answer date through an *acknowledgment* message.

2. The Customer Support can send you an answer and a Final answer to close your dossier. You can identify the question reffering to the answer below the message.

3. The unread messages appears with an orange enveloppe and in the cockpit « Messages – My new Messages ». You need to click on the orange enveloppe in order to mark them as read.



AIRBUS

Create & Send a Request

Access to TechRequest | HomePage / Dashboards | Create your Technical request | Update your technical request | Follow your request with cockpits | Consult the Customer Support answer | **Re-open your dossier**

1 If you are not satisfied with the Customer Support answer you can re-open the dossier by creating a new message.
