`@Markus Peter Grütgen` *hello, test comment*

22

1	Auto filtering out ESG, ALTEN and ITD dossiers
2	Dropdown menu to select personal filter and button to apply filter
3	Filter list containing operator icao, TechRequest status, dossier status, message urgency, domain, msn, and aircraft/engine type
4	Apply Filters button, for selected personal filters or for filters from the filter list
5	List of Favorite Dossiers. Also where dossiers are added/removed from personal favorites
6	Button clicked to create a new personal filter
7	Where the main screen is changed in FSR/E2E views
8	Single Dossier Selector
9	Switch between FSR, E2E, and Leadership view (not all views available to all users)
10	Main View of UFOEntries
11	In depth view of selected UFOEntry
12	Visit TR entry of selected UFOEntry or mark selected UFOEntry as Closed within the dashboard

13	Switch between Comments and FSREntry for Input tab
14	Specify comment as Parts/Technical/Customer Support and link to MSN Dossiers
15	Switch between different KPIs within the KPI view (currently Escalations)
16	Escalation status across Parts, Technical and Customer Support escalations
17	ATA KPI, open and closed dossiers based on ATA chapter (Design Office)
18	Messages KPI, how many messages sent in specified time chunk.
19	Specified time chunk
20	Flag set by E2E
21	Breakdown of new Comments
22	Leadership view of Comments, broken down by type. New Comments are highlighted
